HUNS ARE REPULSED AT MOEUUVRES

WHO'S WHO IN COUNTY POLITICS IS GUESSWORK

Shifting of Alignment Leaves Many High and Dry; Corner Conferences Held by Score

FOSS LOOMS UP AS BOARD'S PIVOT MAN

Supervisor Kelley Assured of Appointment As Successor to County Assessor Horner

The appointment of Supervisor Joseph M. Kelley as successor to Charles F. Horner, whose death occurred Saturday, as county assessor today seemed as the only certainty in the political situation which involves half a dozen county offices, a possible switch of control in the Board of Supervisors, and the activities of political factions jockeying for position and strength at the next election.

POSITIONS INVOLVED MANY AND VARIED

Positions involved in the political shakeup brought about by Horner's death and by the expected resignation of District Attorney W. H. L. Hynes are the county assessor's office, to be filled by the appointment of Supervisor Kelley; the vacancy on the Board of Supervisors brought about by the resignation of Supervisor Kelley to take the assessorship; the office of district attorney, to be vacated by Hynes to go into partnership with Judge William H. Donahue; the redistribution of these offices offers exciting possibilities in drawing new lines, making political trades, opening up new affiliations or bringing to light old ones.

Efforts to line up this and that faction, straining of eyes to peer into the future to see how combinations of this and that will work out, are the process of vote getting, questioning as to shifts in control, held the attention of attaches of the county and were the subject of quiet talks among the county officials.

Out of the gossip there emerged the intimation that Supervisor Fred Foss of Berkeley stands to gain a strategic position in the Board of Supervisors as it may be constituted when a successor has been named by the governor to take Kelley's chair.

Supervisors Kelley, Hynes and Murphy are considered Decoto's supporters. It is deemed exceedingly probable that County Treasurer H. J. Kelly will have a significant power, if he chooses to use it, in adding Governor Stephens to select a successor to Supervisor Kelley.

QUICK ALIGNMENT MUST BE MADE

There is a consensus of opinion that there must be a quick alignment, that events must be precipitated and the entire series of shifts carried through immediately, or that the whole matter with the exception of the appointment of Supervisor Kelley to Horner's place, will be infinitely delayed, and that many factors will then creep in which are now the merest guesswork.

Hynes was out of town today and those in his office were not inclined to speak for him. Prosecuting Attorney Ezra Decoto explained that his attitude would be determined entirely by the wishes of his chief, and that Hynes had not stated what his immediate plans might be.

CAUSE OF UNREST

WASHINGTON, Dec. 3.—An increase in the cost of living on of proportion with the advance in wages and an unequal distribution of food are assigned by the British commission of inquiry into the industrial unrest as the chief reasons for restlessness among the workers of Great Britain.

Congress Waits Wilson's Word War to Cost U.S. \$37,000,000 Day

President's Address to Signalize Start on War Work by New Session of Lawmakers

WAR ON AUSTRIA IS DEMANDED BY LODGE

"We Want Unity; Should Fight Same Enemies," Declares Republican in Relations Body

WASHINGTON, Dec. 3.—Congress reassembled today for its second session, but did little more than go through the formalities of the opening. The work actually begins when President Wilson, in his address to Congress today at 12:30 o'clock, outlines the administration program for vigorous prosecution of the war. Estimates of more than \$13,000,000,000—the greatest in the nation's history—submitted to Congress today as the basis for computing the cost of the war during the fiscal year 1918, gave Congress some idea of the magnitude of its task in putting the full force of America—beside that of the allies in the world fight for democracy.

In the Senate today, where Sir George Reid, former premier of Australia, was a distinguished guest, the session only lasted long enough to appoint members of the committee to formally notify President Wilson Congress was in session and to adjourn in respect to the memory of the late Senator Husting.

The House session was taken up with swearing in new members coming to fill vacancies and the calling of the roll by states.

Both houses there was a pronounced air of confidence and determination to do everything necessary to bring the war to a successful conclusion.

Senator Lodge, ranking Republican of the Senate foreign relations committee, declared today he favored war by the United States against all German allies.

"I have always thought we might as well have declared war against Austria, Turkey and Bulgaria when we made the declaration against Germany," he said. "We have sent the army abroad to secure a victory. A prerequisite of unity, I believe, is for all to be fighting the same enemies."

Organization of both Senate and House under Democratic control having been effected at the special session, both bodies were ready to plunge into the mass of waiting business. Legislation, however, is not expected to get into full swing until next month, after the Christmas recess, although there is some agitation to forego the holiday.

FIRST OF BILLS

Tomorrow will come the initial flood of bills, resolutions and petitions. Among the latter are many petitions accumulated during the recess, demanding the expulsion of Senator Le Follette of Wisconsin for disloyalty.

General, miscellaneous legislation is to come immediately before Congress, possibly including some measures affecting this country's course in the war, in view of widespread sentiment among returning members for declarations of war against Germany's allies, Austria-Hungary, Turkey and Bulgaria. Congress is expected, however, to follow the views of the President in this respect.

Appropriation measures will require much time. Fourteen general and probably several special supply bills for the fiscal year beginning July 1, 1918, as well as estimates of additional money for the war, needs are to be considered, probably immediately after New Year's. Two bills, the legislative, executive and District of Columbia measures, already are under preparation.

With \$21,300,000,000 already appropriated for the present fiscal year's needs, many members believe that the fifty-billion dollar mark may be reached for two years of war.

New war revenue legislation is not scheduled for active consideration for a month or more. A deficit of \$2,900,000,000 in this year's expenditures remains to be provided for.

POLITICS IMPORTANT

Political affairs will come in for much consideration during the session. In view of the general congressional elections next fall at which thirty-two senators, nineteen Democrats and thirteen Republicans, and the entire House membership are to be chosen. Many members believe political campaign necessities may shorten the session.

The Democrats start the session in control of both Senate and House, with 52 Democratic senators against 43 Republicans, with one seat vacant. Husting's vacant in the House the Democrats have 216 members, the Republicans 213, with five independents and one seat vacant.

Several new members joined the House today. Representative Larkin, Republican, of the Sixth Massachusetts district succeeding Augustus P. Gardner, Republican, who resigned; Representative Desha, Democrat, of the Twenty-eighth Pennsylvania district.

(Continued on Page 2, Col. 2-3)

Uncle Sam Plans to Build Tanks Worth \$75,550,000

WASHINGTON, Dec. 3.—War expenses and maintaining and inspecting military establishments will aggregate \$13,504,357,939 for the year ending June 30, 1919, according to estimates submitted to Congress by Secretary of the Treasury McAdoo today.

This is at a rate of practically \$37,000,000 a day. Recognizing the value of tanks as demonstrated by the British, the United States proposes to spend \$75,550,000 in constructing these land dreadnaughts and other armored motor cars and supply trucks.

To enable America to gain supremacy of the air, \$1,126,294,260 is asked to carry out the government's aviation program. Of this, \$1,032,294,260 is to be spent on the army aviation corps and \$94,000,000 for the navy.

Uncle Sam's War Budget Is Growing

WASHINGTON, Dec. 3.—A war budget of more than eleven billion dollars to pay army and navy costs during the fiscal year 1919 faced Congress today when the government's estimates were presented. The sum represents only the strictly military expenses that can be estimated so far in advance and is more than two and a half billion larger than similar appropriations made for the year 1917-1918. So far as the estimates show it provides only for raising and maintaining an army of 1,500,000 men and carrying out naval and coast fortification increase projects already authorized.

The chief item in the budget is for the military establishment of the army, to cost \$6,515,936,553, an increase of \$1,365,907,609 over the total of army appropriations made at the last session. The only means of determining the size of the army provided for is in the estimate of \$1,000,000,000 for pay. This is \$159,244,553 greater than appropriations of the last session for the pay of 62,000 officers and 1,200,000 enlisted men of the line and 398,000 enlisted men of the various auxiliary corps.

FORTIFICATIONS ESTIMATES SHOW A BIG INCREASE

Fortifications estimates total \$2,324,445,122, or an increase of \$1,155,102,874 over appropriations obtained last year.

The navy estimates total \$1,089,860,092, a decrease of \$52,977,257. The naval figures probably do not include, however, new ships that will be asked for whenever building facilities are available.

Items in Secretary Baker's estimates are: \$1,138,907,608 for the Signal Corps; \$2,224,355,000 for army transportation and supplies; \$28,755,891 for the purchase of cavalry and artillery horses; \$157,111,824 for the medical department; \$135,000,000 for engineer equipment for troops; \$892,000,000 for engineer operations in the field; \$300,000,000 for ammunition; \$24,000,000 for ordnance repairs; \$257,144,000 for the purchase of machine guns; \$75,550,000 for armored cars and ammunition for the home guard and \$6,015,000 is asked to construct civil defense camps.

For the military academy a total of \$5,713,254 is sought, some \$4,000,000 being for expenditure on buildings and grounds.

STORE OF AMMUNITION AND GUNS BEING GATHERED

Secretary Daniels estimates for the navy show that the store of guns and ammunition is rapidly being gathered and that estimates have been reduced in many particulars under appropriations received last year. The chief increase is in pay, the total being \$13,229,554, against \$12,532,448. Marine Corps estimates have risen to \$22,153,370, against \$13,531,892.

Naval aviation calls for \$34,000,000, an increase of more than \$30,000,000; for armament naval vessels and merchant ships \$35,394,523 is asked; against \$74,507,023 obtained during the last session; the torpedo item is reduced from \$12,291,280 to \$1,000,000; reserve ordnance supplies from \$1,417,000 to \$32,000,000.

A new item is \$2,000,000 for the construction of a naval station in the Virgin Islands, and another \$1,000,000 is asked for extension of facilities for proving ordnance.

Under the heading of public works the navy department asks appropriations for various yards and stations, including the following:

New York, \$1,600,000; Philadelphia, \$2,400,000; Norfolk, Va., \$3,450,000; naval academy, \$2,275,000; Mare Island Cal., \$1,200,000; Puget Sound, Wash., \$200,000; Tutuila, Samoa, \$50,000; Guam, \$100,000; Guantanamo, Cuba, \$200,000; training station, San Francisco, \$75,000; marine barracks, Peking China, \$25,000; marine barracks, San Diego, Cal., \$1,600,000.

Secretary of Treasury Estimates Expenses of Country for Year at \$13,000,000,000

ARMY AND NAVY GETS GREATEST PART OF IT

\$29,515,000 Will Be Spent on Rivers and Harbors; Parks of State to Receive \$393,000

BY ASSOCIATED PRESS

WASHINGTON, Dec. 3.—Estimates of more than \$13,000,000,000—the greatest in the nation's history—for the conduct of the government and prosecution of the war during the fiscal year 1919 were submitted to Congress today by the treasury department.

In round figures more than \$11,000,000,000 of that vast sum is for the war alone. Part of it will be realized from taxation; the remainder from issues of Liberty bonds.

Deducting \$153,000,000, intended as an annual appropriation toward a sinking fund for the discharge of the old public debt, and some \$330,000,000 which will be turned back to the treasury from postal revenues, the estimated sum for which Congress actually is expected to appropriate is \$10,818,726,595. No previous estimate ever has exceeded two billions.

GENERAL ESTIMATES BREAK PRECEDENTS

Here follows a general statement of the estimates by general headings:

The greatest sum, \$13,891,190; agriculture, \$26,458,551; foreign intercourse, \$6,535,072; military—army, \$6,515,936,553; navy, \$1,089,860,092; inland waterways, \$157,111,824; Panama canal, \$23,171,654; public works (practically all for fortifications), \$2,324,445,122; postal service, \$23,181,840; miscellaneous, \$1,026,208,317; per capita, \$1,265,825; total (cents omitted here and above), \$13,891,190,000; deduct sinking fund and postal returns, \$486,632,346; total, \$13,000,000,000.

For the signal service, which includes the great army for the air, \$1,138,240,315 is estimated. This sum includes the \$640,000,000 previously appropriated for the great army for the air, \$250,000,000 for the equipment of engineer troops, and \$282,000,000 for the expenses of their operations in the field. Ammunition for the great army to blast a way through the German front is estimated at \$300,000,000. Machine guns, the deadliest weapons of the war, more than \$237,000,000 is asked. For armored motor cars more than \$75,000,000 is estimated.

For the signal service, which includes the great army for the air, \$1,138,240,315 is estimated. This sum includes the \$640,000,000 previously appropriated for the great army for the air, \$250,000,000 for the equipment of engineer troops, and \$282,000,000 for the expenses of their operations in the field. Ammunition for the great army to blast a way through the German front is estimated at \$300,000,000. Machine guns, the deadliest weapons of the war, more than \$237,000,000 is asked. For armored motor cars more than \$75,000,000 is estimated.

ARMY AND NAVY TO GET LION'S SHARE

For the extension of the military academy, \$4,000,000; horses for cavalry, etc., \$23,000,000; barracks and quarters, \$25,000,000; construction and repair of hospitals, \$25,000,000; manufacture of arms, \$60,000,000; small arms target practice, \$75,000,000; civilian military training camps, \$50,000,000; rifle ranges for the army, \$25,000,000; construction of military schools and colleges, \$1,138,000. For gathering information the general staff asks \$2,000,000.

The navy's total of a little more than \$1,000,000,000 is distributed principally in this way:

Pay of officers and men, \$426,000,000; aviation, \$24,000,000; improving and equipping navy, \$1,000,000; construction of ships, \$4,000,000; provisions and clothing for the marine corps, \$61,000,000; recruiting, transportation and outfitting recruits, \$15,000,000; arming and equipping naval militia, \$1,000,000; organizing naval reserve force, \$200,000; schools and camps of instruction for naval reserve recruits, \$2,000,000; ordnance, \$25,000,000; new batteries of guns for ships, \$25,000,000; ammunition for ships, \$25,000,000; torpedoes and torpedo appliances, \$1,000,000; extension of the naval gun factory at Washington, \$2,500,000; reserve supplies of ordnance, \$2,000,000; for a new naval proving grounds, \$1,000,000; for experiments, \$25,000,000; maintenance of yards and docks and contingencies, \$1,000,000; for medicine and surgery, \$500,000; for hospital patients, \$500,000; provisions for hospital patients, \$500,000; transportation charges on the navy, \$1,000,000; for the bureau of supplies and stores, \$1,000,000; for the bureau of fuel for the navy and transportation of the same, \$800,000,000; construction and repairs of ships, \$1,000,000; engineering, \$1,000,000; for the navy, \$1,000,000.

EVERY BRANCH OF GOVERNMENT COVERED

For the civil administration \$5,000,000 is estimated for the fuel administration, \$2,000,000.

The estimates for all other departments, besides showing increases for the expansion due to activities consequent on the war, show a reduction in the increased cost of everything general throughout the country.

The state department revives its

(Continued on Page 2, Col. 4)

RUSS VOTE INDICATES BOLSHIEVIK IN MINORITY

Election Returns for Constituent Assembly Show Maximalists Not in Popular Favor

GOVERNMENT OF KERENSKY BACK

Manifesto Issued Warning the Present Regime Has No Power to Carry Out Decrees

BY UNITED PRESS

PETROGRAD, Dec. 3.—Election returns for the constituent assembly, as received from the provinces today, show the Maximalists (Bolsheviks) in the minority, it was announced.

WASHINGTON, Dec. 3.—The Russian provisional government, thrown out of power last month by the Bolsheviks, reappeared on the scene Friday, according to special despatches from Petrograd, and issued a manifesto claiming to be the only legal authority in Russia and urging the Bolsheviks to return to power.

All measures taken by the provisional government, the manifesto says, were with the view of assembling the constituent assembly and to tide over the crisis until the constituent assembly would be able to declare the will of the people, but this hope was swept away by the revolt of the extremists, which dislocated the electoral machinery. Nevertheless it advises that the assembly, as elected during the past few days, be convened, although it is not yet complete. The Bolsheviks are protesting that the assembly will not represent Russia's will.

The manifesto declares further that those members of the provisional government who were released after their arrest had tried to carry on the government since the Lenin uprising, especially that of finance, and of furnishing the army with food and other supplies.

With reference to this the Petrograd correspondent of the Daily Mail says that all the provisional government has been able to do was to provide money for state necessities.

PREMIER KERENSKY HAS TENDERED RESIGNATION

It points out that since the extremist upheaval the provisional government has received the resignations of Premier Kerensky and General Verkhovski and Admiral Verzhbitski, ministers of war and marine, respectively.

BY ASSOCIATED PRESS

PETROGRAD, Dec. 3.—The newspapers which printed the manifesto of the provisional government have been suspended. The printing facilities have been placed at the disposal of the Bolsheviks and peasant numbers.

The German maximalists are not listening out of humanitarian motives or a feeling of sympathy toward Russia to the proposal for an armistice, the Bolshevik foreign commissary, said in an address today to the soldiers and workmen's delegates. Only fear of the German proletariat, inspired by the example of the Russian revolutionists, prompted them to accept the overtures of Enns Krenko, the Bolshevik commander-in-chief, he asserted.

"The Russian revolution has pointed a way and makes us forget the want of military success. The Emperor has spoken to us as equal to equal because he knows a revolution of the German proletariat, a rebellion of soldiers and peasants would be the answer if he gave any other reply."

RUSSIAN DEPUTATION ARRIVES, SAYS BERLIN

BERLIN, Dec. 3.—A Russian deputation, the official statement says, has arrived at the command of Prince Leopold of Bavaria, with the object of arranging a general armistice.

AMSTERDAM, Dec. 3.—Bulgaria has decided to open negotiations with Russia, in accordance with her allies, and has sent a cable to this effect to the Russian government. A Sofia despatch says. This announcement was made in the Bulgarian parliament by Premier Radikoff.

STOCKHOLM, Dec. 3.—Vladimir Schoum, one of the representatives of the Bolsheviks in the peace negotiations at Brest-Litovsk, was arrested at Petrograd a few days before the revolution of last March as a German spy, according to information obtained by the Associated Press from a well-informed source.

Russia's Bolsheviks played their grim joke of a peace with Germany today, while their regime tottered and swayed to an approaching fall at home.

Every indication was that a majority of the Russian democracy would never recognize any pact which the Trotsky-Lenine ring would patch up with the enemy.

Attacks of Germans Fail to Regain Ground; Ally Armies on Piave

Bulgars Will Seek Armistice With Russians

AMSTERDAM, Dec. 3.—The Bulgarian premier announced today that negotiations were shortly to be opened with Russia for an armistice, according to despatches received here.

35 BANDITS KILLED BY U.S. TROOPS

BY ASSOCIATED PRESS

INDIO, TEXAS, Dec. 3.—One American cavalryman, a Mexican foreman of an American cattle ranch and 35 Mexicans were killed in a battle which occurred early Sunday morning at Buena Vista, a small hamlet on the Mexican side of the Rio Grande, a few miles from here. The dead:

Private Riggs, eighth cavalry, sanitary detachment.
Just Gonzalez, foreman of the Tiguer cattle ranch.
The wounded:
Private Noriel, Troop K, slightly.
The bandits, 200 in number, under the leadership of J. F. Tigner, raided the cattle ranch of J. F. Tigner, driving off a number of cattle and shooting down others in the pasture.

SENT IN PURSUIT

Tigner appealed by telephone to Colonel George T. Langhorne, district commander at Marfa, who ordered Lieutenant Leonard P. Matlack with twenty men in pursuit. Tigner, owner of the cattle, accompanied the troops.

Lieutenant Matlack followed a hot trail into Mexico, and at Buena Vista the bandits attempted to ambush him. The lieutenant rode through the ambush into the midst of the bandits, his men killing thirty-five and wounding many. The Mexicans retreated in disorder into the town.

In the meantime Colonel Langhorne had dispatched the machine gun troop and troops L and I under Captain Barnes, to the scene. These engaged the bandits, who fought desperately.

HORSES ARE SHOT

During the fighting a number of the cavalrymen's horses were shot from under them. It was also that of Tigner's mounted band. A soldier and joined in the pursuit of the bandits after the attempted ambush. In crossing a deep ditch the cattle man was jolted from the horse and was not found for several hours after the fight.

The carcasses of the stolen cattle were found in the streets of Buena Vista when the last of the bandits retreated across the river into Mexico. Colonel Langhorne arrived here from Marfa and assumed command of the situation.

All the troops have returned to the American side of the Rio Grande.

ONSLAUGHT OF TEUTONS FAILSTOWN AT CAMBRAI

General Byng Withstands 3 Days' Attacks of Germans; Takes Prisoners and Guns

HEAVY LOSSES ARE INFLICTED ON HUNS

BY ASSOCIATED PRESS

LEASD WIRE TO TRIBUNE

LONDON, Dec. 3.—"Hostile attacks delivered yesterday evening against our positions in the neighborhood of Cambrai (Cambrai) were repulsed after sharp fighting," says today's official report.

"Successful minor encounters during the night in the neighborhood of Euren resulted in the capture by the British troops of twelve German machine guns and a number of prisoners."

"Beyond considerable artillery activity by both sides on the southern battle front there is nothing further to report."

BERLIN (via London), Dec. 3.—Capture of 6000 prisoners and 100 guns since November 30 in the great German drive out of Cambrai was announced by the war office today. Between Inchy and Bourlon, the statement declared, a British attack had been repulsed. Violent fighting was reported at Laversette, where eighteen machine guns were taken.

On the Flanders front, north of Passchendaele, a strong English attack was thrown back by counter-attacks.

GERMAN FORCES SWITCH ATTACK

LEASD WIRE TO TRIBUNE

LONDON, Dec. 3.—German forces switched their attacks to the northern side of the Cambrai salient during the night and assaulted the British positions around Moeuvres, but were unable to gain any additional ground, the war office announced today.

The attacking Teutons were hurled back, leaving a number of prisoners and twelve machine guns in the hands of the British.

In the Bourlon sector the Germans

IMPRESSIVE RITES
SAID FOR HORNER

Amid banks of floral tributes from public officials and friends from every walk of life, last rites were paid the late County Assessor C. F. Horner today. The funeral service was held at the home of his wife, Mrs. Horner, at 902 Lake Shore Boulevard, where the first services were held at 1 o'clock, in this setting Rev. Francis J. Van Horn, of the First Congregational Church, read the service for the dead. Hundreds of friends attended the service.

Following the service at the home a second was held at Irvington, where interment was made in the Oak Fellows cemetery. This service was under the auspices of the Centerville lodge of Masons, known as Alameda lodge, one of the oldest in the county. The lodge where Horner took his first degree, E. H. Hartman, superintendent of the De Coto Masonic Home acted as master.

The pallbearers were the friends of the late assessor and several deputies from his office. They were Dr. H. W. Emerson, of Centerville, Harry W. Jackson, of San Francisco, Tom Robinson, chief deputy in the assessor's office; Deputy Will Gale, Supervisor Joseph M. Kelley, Superior Judge W. T. Harris, Superior Judge W. H. Donahue and Henry Crosby.

Horner was a native of Alameda county and the son of one of the county's earliest settlers. His boyhood was spent in Irvington and Centerville, and with many of these, including Judge Donahue, Dr. Emerson, and others, he today gathered to attend his funeral, but he attended the old Washington college in the southern end of the county.

Horner was 55 years of age. He served 11 years as supervisor before entering the assessor's office, at that time it was left vacant by Henry P. Dalton. He is survived by a widow, Sarah De Coto Horner, two brothers, George H. Horner and W. Y. Horner, and two sisters, Marjanna Horner and Mrs. Sarah Horner De Coto.

As a tribute to the memory of the late assessor the Board of Supervisors this morning postponed all consideration of business affairs and adjourned until tomorrow morning.

As soon as the session had been called to order by Chairman Murphy, Supervisor John F. Mullins moved that the adjournment be taken. "We have been officially informed and we are personally cognizant," he said, "of the death of Assessor Charles F. Horner, who has served this county faithfully both as supervisor and assessor for seventeen years. It is fitting that at this time, we should postpone all business out of respect to one who has been a devoted public servant and a man of integrity and ability." Supervisor Fred W. Faus, voiced the same sentiments in seconding the motion which was unanimously carried. The postponed meeting will be held at 9 o'clock tomorrow morning.

Ornstein Makes Last
Appearance Tonight

Leo Ornstein, the young Russian-American composer and pianist who ranks as one of the greatest and most promising men in contemporary music, will give in the Macdonough theater tonight his last California recital. From here he will go to Portland and Seattle and thence to Lincoln, Neb., where he will give the Chicago Symphony orchestra. His interesting program, which includes some of his own and modern works, such as Cyril Scott, Claude Debussy, Maurice Ravel and Erik Satie, will be as follows: "Sonata" (Ornstein), "Coches" (travers les feuilles (Debussy), Morning Song in the Jungle (Scott), Dance of the Elephants (Scott), Two Choruses (Bach-Busoni), Arabesque (Schumann), Nocturne (Schumann), Rhapsodie No. 13 (Liszt), Ondine (Ravel), The Brave Little Tailor (Korngold), Marche Grottesque (Ornstein), Funeral March of the Dwarfs (Ornstein), Dance of the Dwarfs (Ornstein), Nocturne in E flat major (Chopin), Valse in C sharp minor (Chopin), Etude in E minor (Chopin), Etude, Op. 10, No. 3 (Chopin), "Butterfly" etude (Chopin), Valse caprice in E flat (Rubinstein).

'Freedom of the World'
Is Feature at Kinema

With "The Freedom of the World" and Fatty's "Trip Through Coney Island" at the Kinema, today and all this week the program ranges from the sublime to the ridiculous. "The Freedom of the World" is truly an inspiration of patriotism, that will make every American proud that he is an American, that he has the same red blood in his veins that the fighting lads have. This picture does not need fighting scenes and scenes to give a sense of patriotic fervor. It is a romance, wherein the girls loom up just as big and important as the boys. The Kinema shows a picture of a joy jaunt through Coney Island with Fatty Arbuckle as guide, uproarious fun and a session for Fatty tries everything, and always with ridiculous results. A Paramount picture and the latest News Weekly complete the program.

ENID BENNETT IS
FRANKLIN STAR

The delightful picture appropriately named "Princess of the Dais" with Enid Bennett in the stellar role, now playing at the Franklin theater, might be described as an idyllic fantasy. It deals with the adventures of a blind girl who lives in the grimmest and most sordid region of a coal mining state. Bereft of sight, she peoples an imaginary world with the knights, fairies, gnomes and pixies of the stories read to her when a child, and an abandoned boring of an old man becomes the blind girl's friend of the elves. But greater happiness is in store for her with the restoration of her sight, though she is deprived of her beautiful world of dreams.

On the same program is "The Man With the Hero" with George Thayer, doing honors in this play of genuine surprises, buffing and cleverly done situations, and a well told film story which brings the audience in contact with the "unlucky" Herbert Rawlinson, well-known for his excellent work in "Come Through".

Robt. La Fayette, who made fresh laurels for himself, as well as a screen debut in "Mother of Mine."

COMICAL SHOW IS
SEEN AT COLUMBIA

Those who were fortunate enough to secure seats at the Columbia theater Tuesday night laughed until they cried at the antics of the two players kept the musical comedians appearing in the roles of "The Hula Hula Girls," a hedonistic of nonsense based on a Hawaiian story.

"The Hula Hula Girls" is one of the brightest and most timely musical comedies ever presented at the Columbia and the house was filled to overflowing. Post played the role of "Bibi Silver" and Larry Weaver appeared as "Jake Blumstein." The two players kept the house in a continual uproar throughout the action of the comedy which was written by Leo Jacobs.

Post and his partner in riot destroying were supported by an excellent cast including Francis Young, Bobby Ryles, Frank Bird, Rex Post, and the musical comedy troupe, including Vera Burgess, "Home-ward Bound," Bobby Ryles, "On the Way to Waukegan," an original hula hula number and others.

TWO STARS GLEAM
ON ORPHEUM BILL

Sophie Tucker and Nan Halperin, two real and distinct headliners, came back to the Oakland Orpheum yesterday, and their return was met with the enthusiasm of almost capacity audiences. Miss Halperin, who first came into the limelight with her famous song, "If You'll Only Play My Wedding March in Ragtime," completed her act yesterday with the same song, and although this is not the first time that Oakland has heard that song, sung by Miss Halperin herself, the feature has lost none of its charm and was the occasion for a burst of applause and an instant call for an encore, which was not given.

Miss Halperin opened her act in the role of a small girl grief-stricken at the death of a mother who had been her home. She tearfully packed her grip to run away, while blaming the catastrophe upon her mother, who is always doing things without consulting me and mother." She departed with a vow to hunt down the mother and bring her back home.

Sophie Tucker, "the Mary Garden of vaudeville," with her "original Sophie Tucker ragtime orchestra band," her five kings of syncopation, stopped the show for a time while a hungry audience feasted on the original Tucker personality. Sophie Tucker, who has been a vaudeville star for a time while a hungry audience feasted on the original Tucker personality.

In the encores she was joined by Frank Westphal, who preceded her on the bill, and who says he "isn't a regular actor." Westphal broke into the middle of her encore, pushing his "Henry Ford" piano, a little battle-scarred veteran, with Westphal at the "wheel," made good not only in his syncopation, but as a soloist for at least a part of Miss Tucker's ragtime orchestra band, who walked about the stage in a line of five.

Billy Lloyd and George F. Britt, in a mixture of vaudeville, brought down the audience with their sales of domestic doorbells and a Scotch distaste in costume. The Scotch costume formed the background for several jokes that were well taken by the audience.

Mr. and Mrs. Mel-Burne in a wide-awake episode, "On the Fourth Floor," was a bit of comedy in which the husband returned home in the small hours in a highly intoxicated state. A pretty wife, in a pretty costume, meets him, but traces strictly barred from the lines that follow and clean relishing comedy sways the audience.

A Christie comedy, a screen offering, the skating bear Lolotte, a real live bear that does fancy antics on roller skates, and the Pathe News Weekly complete the bill.

The first of the plays founded upon the European war was given its initial local presentation at the Bishop yesterday afternoon, and with Crane Wilbur in the lead, the production, it can be accounted one of the real dramatic hits of the year.

It is called "Inside the Lines" and is the handiwork of the man who wrote that clever farce, "Seven Keys to Baldpate," which George M. Cohan turned into a huge dramatic success. In this new play, Earl Derr Biggers has given an intensely interesting story, efficient and suspense, with a sensational twist to it at the end. There are three acts in the play and the total absence of shadow.

The scenes are laid on the Rock of Gibraltar in August of 1914, just at the outbreak of the war. The story deals with a plot to destroy the British battle fleet stationed near the famous fortress, and with the running down of the plot by an English army officer.

Crane Wilbur has done nothing better than his performance of Captain Woodhouse, the English secret service officer, Jane O'Rourke had few opportunities as the American girl, but she makes the most of them.

"Inside the Lines" will be seen at the Bishop for the remainder of the week, with matinees on Wednesday and Sunday.

PAULINE FREDERICK
IN T. & D. FEATURE

Offering its appeal to every taste, the program at the new T. & D. theater is a triple attraction. It runs the gamut in the tragic and the sublime and in the humorous. David Graham Phillips' great story, "The Hungry Heart," in which Pauline Frederick is starred, offers the sublime. Those greatest of fun dealers, Mack Sennett and George Ade, furnish the humorous. The picture and symphony concert by the T. & D. symphony orchestra, which makes the program as a whole unvarying in quality and quantity.

Phillips bared a woman's soul when he wrote "The Hungry Heart" and Pauline Frederick was never afforded a role that stirred her for the same opportunity to display her emotional states. The plot holds its fascination from the beginning. Phillips began his novel where other authors left off—at the stage where the honeymoon has waned and the principals face the cold compromising realities of life.

"Are Wallpapers Safe?" is the title of Mack Sennett's offering. It needs no introduction to fun fans. It's another riot from the Sennett factory of falls and spills and comedy that has no equal except Sennett's own direction.

JUNE CAPRICE IN
AMERICAN FILM

The American Theater presents June Caprice in "Miss L. S. A. and Earl Williams and Corinne Griffith in 'The Love Doctor' as the final plays on the house bill until Tuesday night in addition the specially selected musical comedy by John Wharry Lewis and his orchestra and an interesting animated cartoon are given.

June Caprice, the "Sunshine Maid," sailed on in one of the prettiest of picture plays, "Miss L. S. A.," a charming, poignant personality radiating from her eyes and her smile. She is a girl of her country, who has a heart for her American and her personal life. She is a girl of her country, who has a heart for her American and her personal life.

The "Love Doctor" stars Edna May and Mrs. Griffith wonderful opportunities for artistic character portrayal. It is the story of a physician who made his fortune by treating women of the kind who have been misled by the province of decay.

There's a new flavor that most everybody likes in POST TOASTIES—Ooblex

SPECTACLE AT PANTAGES

An elaborately staged and richly costumed musical spectacle is the "Dread of the Orient," the headline attraction in another particularly good bill opening last night at Pantages. The harem set, which is a riot of rich oriental colors and the music and dances are on the order of Mrs. Mahrenko, a lyric soprano, leads the act, in company with a group of pretty girls who sing and dance exceptionally well.

Charles Hovey and Harry Lee are two clever boys in a new style of "Nominations," an act made up of clever repartee and exceedingly good parody. The atmosphere is decidedly Yiddish, and it is good for half a dozen come backs every time.

Claudia Coleman is a cartoonist of women types. She does not draw her pictures on paper, but poses them under her hat. Assisted by her huts, she is every kind of a woman you have seen about the village, from the waitress who chews gum and talks to "lizzie" to the intellectual vampire. After seeing her every woman should know how to wear her hat becomingly.

"All Wrong" is styled a quaint comedy, and it is that and more. It is a musical spectacle in the "Dread of the Orient," the headline attraction in another particularly good bill opening last night at Pantages. The harem set, which is a riot of rich oriental colors and the music and dances are on the order of Mrs. Mahrenko, a lyric soprano, leads the act, in company with a group of pretty girls who sing and dance exceptionally well.

"Her Unborn Child"
New Hippodrome Bill

This afternoon marked the initial production of one of the most sensational and startling dramatic offerings ever presented in Oakland when the Hippodrome playhouse, headed by Virginia Thorpe and Roscoe Karns took the leading roles in Howard McKen's farces, great comedy drama "Her Unborn Child," a problem play of a new sort.

"Her Unborn Child" aside from being one of the most elaborate shows ever presented at the theater is unique inasmuch as it treats in a daring manner out the salient features without being in the least offensive.

Those who scored unusually heavy hits this afternoon were Paul Byron and Virginia Steek who played the juvenile parts; Gladys Kingsbury, who gave a careful and intelligent reading to the role of the aristocratic aunt; Margaret Nugent, who made a delightful mother, the role originally created by Mrs. Minnie Gerson; Rupert Drum who forcefully carried the role of the family physician and Virginia Bushell, who made the most of a small part.

DEFENSE OF MRS. VICKERY IS INDICATED

The ponderous machinery of the law swung slowly into motion this morning for the trial of Mrs. Katherine Vickery, on a charge of murdering Al Williams, on September 7, at the Varney paint shop, 533 Twentieth street. The clerk of Judge Ogden's court today entered the box and took their seats.

The twelve men were sworn and the questioning was begun by Assistant District Attorney Theodore Wittchen, associated with Assistant District Attorney Myron Harris in the prosecution.

The first clash of the trial occurred when Attorney L. S. Church, for the defendant, objected to a question as to the degree of proof the testimony would require to be produced to show that the accused woman knew the nature of the act when she shot Williams, indicating that the defense would rely upon the theory that Mrs. Vickery was goaded to the point of desperation by the alleged blackmail, which she said at the time of the killing. The defense had practiced against her.

OBJECTION OVERULED

Attorney Wittchen asked the witness if, in the event of the insanity plea being interposed, he would require the defendant to prove beyond a reasonable doubt that she was legally insane to the degree that she was incapable of knowing the character of her act when she shot Williams. Defendant's counsel interposed an objection, which was overruled, but in the discussion it developed that the defense would maintain that while the player probably knew that her act was a violation of the law she was driven so far in her desperation as to not realize the act was wrong.

Immediately after Mrs. Vickery had emptied the contents of a revolver into the prostrate form of her victim, whom she chased through the paint works to the top floor, she declared, as she drained the contents of a phial of chloroform, according to the statement in the record, "I have shot a blackmailer, and that is what every woman should do with a man who blackmails her."

The effects of the drug were overcome by prompt treatment at the Emergency hospital, and Mrs. Vickery was bound over to answer the charge of murder. After she had recovered she made a statement to the police, in which it is said she denounced her victim as having tried to get money from her on the threat of divulging to her husband the details of his relations with her. She said she met Williams during the exposition.

IS CHERISHED PRISONER.

Since being confined in the county jail Mrs. Vickery has been the most cause her husband, Henry Vickery, a former jockey well known to the people who used to circulate around the paddock at Emeryville, has been with her as much of the time as the jail rules would allow. Her cheerfulness is said to be due to her husband's forgiveness and apparent belief in her innocence of any wrong relations with the man she killed.

All Candidates Confident at Finish Recall Election to Be Held Tomorrow

Appeal to the voters to go to the polls tomorrow and cast their ballots at the recall election to decide whether Mayor John L. Davie shall continue in office was issued from all the campaign headquarters today. With this exception, the campaign headquarters were quiet for the first time in many weeks. Each of the candidates had Saturday night completed a series of meetings and precinct and district visits which had occupied much of the day for two weeks or more.

Those who have been studying the political situation thought they saw evidence of a change in public sentiment to an attitude favoring recall, and this was said to be indicated in the betting only ten days ago odds of 10 to 4 that Mayor Davie would not be recalled were generally considered safe money, the quotations in many quarters had fallen to 2 to 1.

CANDIDATES' LAST SAY.

Mayor Davie issued a statement to the voters today declaring that the promise at the recall was the corporate interest on one side and a duly elected official doing his duty on the other.

David C. Dutton announced that he was ready to submit the issue to the voters, having gone into all parts of the city to make sure that he was known to all the voters. He said that he was confident that he was known to all the voters, and that he was confident that he was known to all the voters.

TO MISLEAD VOTERS.

"I have never made the red light law an issue in my campaign," said Taylor. "Neither have the Socialists taken any stand attributed to them in the unauthorized and false advertisement. It is a bald attempt to mislead the voters and to cast discredit upon our position."

"I stand directly on the national platform of the Socialist party. In the local fight we are against Davie because he has attacked free speech, the right of free assembly, and has made promises of municipal markets and public ownership of public utilities which he has not kept, and has not intended to keep, merely using them as vote getters. We are against him for these things, and are against Davie on that ground."

The statements issued from the campaign headquarters follow:

CONFIDENT OF DUTTON.

A. C. Moran, manager of the Dutton Campaign Committee, said:

"We are confident that tomorrow's election will prove a big victory for Dutton and decency. The issue has not been one of personalities but the campaign has been made so far as we are concerned on the greater policy of constructive and interminable wrecking of the city and state."

"At this eleventh hour if the people of Oakland will just sum up in their minds what has appeared in print from the several candidates and size them up according to their utterances, I am perfectly satisfied that Mr. Dutton's vote will be larger than that of Mayor Davie. It is unfortunate that Mr. Davie has permitted this shilling of responsibility was entirely voluntary on his part and as he is the elected mayor of this city, he alone is responsible for his acts."

"When all over the city we are in receipt of information which show that Oakland is ready for a radical change in the way of doing things, and are against Davie on that ground."

"The recall election will be a very difficult campaign. They have daily issued charges that do over night of their own weight, never sticking to any one point long enough to prove it. In the last hour statements of some unreliable anti-recall enthusiasts have been linked with the for discredited purpose of making a logical argument for a recall and getting tired of accusing me of working in my shirt sleeves and other foolishness. The recall element has tried to hold me responsible for what others do and say."

"And so a review of the present recall shows that it was born in pettiness and selfishness and with defeat looking it in the face all pledges of dignity were forgotten and eleven-hour mud-slinging resorted to."

"I never fear the decision of the people. My only hope is that a large vote will be cast so that it will not be the voice of a small minority that wins."

"I can stand the attacks upon myself because any one who tries to do his duty in public office must submit to charges of assassination but I believe public decency would demand retribution for those responsible for the spreading of the last hour literature of filth which tries to pose as the defender of homes and womanhood and charge me with statements which I have never made or approved."

"It has been indicated by the over-enthusiastic reaction who did not know their names upon their literature. Possibly shame overtook them as they gazed upon their filthy work. For this punishment is the just due and I shall see to it that those guilty of the anonymous last hour stuff are prosecuted to the fullest extent of the law."

"My closing statement to the people is, which kind of government are you for. Events of the eleventh hour in the recall election are as clear as crystal. It is the corporate interests on one side spending the whole sums to get me out and

reverting to even illegal distribution of pamphlets and literature and on the other side a duly elected official doing his duty. Who is paying for the last hour lying circulars? It must be worth thousands to get me out or else they wouldn't spend so much to recall me."

"The people will decide, not the interests with the axes to grind or their official newspaper organs."

"AGAINST LABOR."

That Mayor Davie has "consistently voted against labor" is the declaration made in a statement issued by the Weeks Campaign Committee, and signed by Dr. J. B. Wood and Elmer Vaughn. The statement reads in part:

"The American Federation of Labor at its recent convention took the position that organized labor must go into politics if it is to protect its interests. No longer content to stay in the background and get me out or else they wouldn't spend so much to recall me."

"The people will decide, not the interests with the axes to grind or their official newspaper organs."

COURT FINDS FRAUD IN MINE DEALS

Contentions set up by Captain W. S. Overton, U. S. A., retired, military instructor at Yale University, and Major Carl A. Martin, U. S. A., minority stockholders of the Presidio Mining Company of Presidio, Texas, that the officers of the company had "milked" the corporation of \$100,000, were sustained by Federal Judge W. C. Van Fleet in the United States District Court in San Francisco today.

Judge Van Fleet in finding for the plaintiffs branded the actions of the corporation officers as the "grossest fraud," ordered a master in chancery to make a full and complete inventory of the books of the corporation, demanded that the officers of the company return the money they are alleged to have taken and declared he would appoint a Federal receiver to take charge of the corporation's affairs.

The defendants in the action are Berth Noyes, president; W. S. Noyes of Oakland, vice-president and general manager; L. Osborne, secretary; Van W. Peat and I. F. Doherty, directors. The methods employed, according to the testimony, involved the paying of exorbitant salaries, the

\$100,000 FOR UPKEEP GIVEN LOCAL HARBOR

The Federal Government has estimated the maintenance of Oakland harbor and waterways, together with such improvements as have been outlined for the coming year, at \$100,000, according to information from Washington today on the cost charges of the country's water-borne commerce. Los Angeles receives a similar amount in the estimates. The figures were filed with Congress today for the fiscal year 1919.

The total expense is estimated at \$29,515,007 for the harbors of the United States. This represents a reduction of more than \$5,000,000.

SILVA'S FUNERAL

Many friends attended the funeral of Charles H. Silva, who died last week at the Silva ranch on the Foothill boulevard and eighty-second avenue. Interment was at Evergreen cemetery.

Silva was born on the ranch and had lived in Elmhurst for fifty-three years. He was well known to a host of friends and years ago conducted an inn on the road. He was a member of Brooklyn Parlor of the Native Sons and of many other fraternal organizations. Silva is survived by a widow and two children, his son, Edward, who is at Camp Mills, New York; his daughter, Mrs. J. C. McNiece; his brothers, Frank, Edward and John, and two sisters, Mrs. W. H. Durwell and Mrs. George J. Hans.

In advising local associations of this work the War Work Council states: "Our social life is undergoing rapid changes. Our standards need resetting. We must quickly get back to a safer place. We have personal standards; we need community standards."

TOMORROW TO SEE START OF Y.W.C.A. DRIVE

Tomorrow morning the Oakland Y. W. C. A. will launch its big war drive to raise \$50,000—Alameda county and Richmond's share of the \$100,000 needed by the War Work Council of the National Association—for the conservation of the womanhood of the world. The money will be utilized in the erection and maintenance of hostess houses at draft camps, in the care of the girls and women in cities surrounding all army camps, navy yards and training stations, providing proper housing conditions and cafeterias for girls and women employed in war work, training of women and girls to replace men called to the front, rest houses and huts for nurses abroad, reclamation work in invaded countries; in fact, every line of endeavor which intends to help womanhood in offsetting the ravages of war will have its Y. W. C. A. workers.

In advising local associations of this work the War Work Council states: "Our social life is undergoing rapid changes. Our standards need resetting. We must quickly get back to a safer place. We have personal standards; we need community standards."

Young men

THE country needs young men trained in business methods, young men who can handle the business of the nation. It needs them in the army, in the navy, in administrative departments of the government, in factories and plants of all kinds.

The number of those passing the civil service examinations is far too low to meet the government requirements. Weekly examinations are being held in order to fill the civil service lists more rapidly.

There are positions behind the firing line that are just as important, that mean just as much in making "the world safe for democracy" as a place in the trenches.

Heald's Business College has special courses for those wishing to fit themselves for civil service examinations—both young men and young women.

HEALD'S Business College

Make Your Xmas Gift To the Men Who Fight For You

Two great Christian agencies—the young Men's Christian Association and the Knights of Columbus—have been called upon by President Wilson to direct the recreational, social, educational, mental and moral welfare work among the soldiers and sailors of America's fighting forces. These recreation centers are open to all, regardless of creed.

The religious needs of non-Catholics in the camps are supplied by the Y. M. C. A.; those of Catholics, comprising about 40 per cent of the men in the service, through the K. of C.

The buildings will be open to all at all times; no private meetings; no secret affairs behind closed doors.

The general administration will be under the officers and clerical staff of the Knights of Columbus and not charged against this fund. Their bonded officers now responsible for Eight Millions Insurance Funds, will handle the money.

SUBSCRIBE TODAY At Any Bank TO THE CATHOLIC WAR WORK FUND

(Make checks payable to Most Reverend Archbishop Edward J. Hanna, trustee, and mail to F. M. Cerini, treasurer, 660 Thirteenth street, Oakland. Telephone Oakland 6733).

Funny Ground Rules Costly For Alameda

Fruitvale Natives Get Breaks and Win in Tight Battle of Benham and Hollis.

By CARL E. BRAZIER
"Hack" Miller and Billy Lane, Coast Leaguers, had chances to drive in runs, and neither could get the ball out of the infield in the pinch. That's how Artie Benham's old port arm was working for the Fruitvale Natives yesterday at Lincoln Park.

There were three men on the paths with one run needed to tie the score when "Red" Powers scooped up Lane's grounder in the ninth inning for a force-out to end the game. That's how near Alameda came to breaking through with its first win of the Class-A race in the East Bay Cities Mid-Winter League.

GAME STAND AT FINISH.
Hack Miller had a great battle with Benham in the eighth inning, when with a man on second he fouled off four before he finally fell a victim for a high one and swung for under the ball for his third strike. Boyle, on the other hand, moved up on a passed ball. Ross beat out a bunt to Rodgers, putting Boyle on third, and the 2000 fans were out for game were up on their toes. But Leahy popped up a foul in trying to bunt. Greina struck out after Benham in the three-ball and one strike hole. Ross stole second as Hollis worked Benham for a pass, filling the bases. Then the men on the paths were needed to tie the score. Billy Lane could have been a hero, but his slow roller to Powers was a dud. Alameda had made a game stand on the short end of the score and even with five straight defeats was better off than the Fruitvale Natives, who were out for game were up on their toes. But Leahy popped up a foul in trying to bunt. Greina struck out after Benham in the three-ball and one strike hole. Ross stole second as Hollis worked Benham for a pass, filling the bases. Then the men on the paths were needed to tie the score. Billy Lane could have been a hero, but his slow roller to Powers was a dud. Alameda had made a game stand on the short end of the score and even with five straight defeats was better off than the Fruitvale Natives, who were out for game were up on their toes.

NATIVES PLAY BUNT GAME.
The Lincoln Park infield was slow; the game was heavy and the Fruitvale Natives saw this early in the game and had his Fruitvale Natives lurching the ball for a hit. For an entire season the Fruitvale Natives have been playing bunt game. The Lincoln Park infield was slow; the game was heavy and the Fruitvale Natives saw this early in the game and had his Fruitvale Natives lurching the ball for a hit. For an entire season the Fruitvale Natives have been playing bunt game.

LUCK AGAINST MILLER.
After the Natives had taken the count in the first of the game, the Fruitvale Natives saw this early in the game and had his Fruitvale Natives lurching the ball for a hit. For an entire season the Fruitvale Natives have been playing bunt game.

Standing of Winter League Clubs

CLASS A				CLASS B			
Club	Won	Lost	Pct.	Club	Won	Lost	Pct.
Columbia Steel	3	0	1.000	Melrose Merchants	4	0	1.000
Maxwell Hardware	3	1	.750	Maxwell Hardware	3	2	.600
Fruitvale N. S. G. W.	3	1	.750	Alameda Merchants	2	2	.500
Crockett	2	2	.500	Crystal Laundry	2	3	.400
Northland	2	2	.500	Vitt's Grays	1	3	.250
Oakland Natives	2	3	.400	Santa Fe Improvers	1	3	.250
Southern Pacific	1	4	.200				
Alameda	0	5	.000				

RESULTS YESTERDAY.
Pittsburg (Columbia Steel), 4; Crockett, 1.
Oakland Native Sons, 2; Maxwell Hardware, 0.
Fruitvale N. S. G. W., 4; Alameda, 3.
Maryland, 6; Southern Pacific, 5.
GAMES NEXT SUNDAY.
Alameda vs. Pittsburg at Pittsburg.
Marylands vs. Maxwell Hardware.
Fruitvale vs. Crockett at Crockett.
Southern Pacific vs. N. S. G. W. at Fruitvale.

PLENTY OF STARS.
The game was a battle between Bill Steen and Bill Prough. The Pittsburgh boys have been sensational, errorless support behind Prough. Charles Prough, Bill Steen, and Oscar Stange were the notables in the Pittsburgh lineup. Prough hit a single, Stange a double, and Steen a triple. Prough and Steen allowed three hits each.

MIDDLETON STARTS IT.
In the third inning Crockett broke the tie by hitting the run across and Pittsburgh followed suit in their half. Prough, Crockett, and Middleton tripled to the centerfield fence, which was a run for Crockett's only run.

SHALLER THE HERO.
This drive was not the only one Biff Schaller had in the game. In the fourth inning he did another thing that had not been seen in the Pittsburgh hit, when he hit a home run. Schaller's drive was a single, and he scored on a passed ball.

STEEL BOYS CATCH IT.
The Steel Boys made two more errors for the Steel Company. In the fifth inning they made an error on a bunt, and in the sixth inning they made an error on a bunt. The Steel Boys made two more errors for the Steel Company.

STEEL BOYS CATCH IT.
The Steel Boys made two more errors for the Steel Company. In the fifth inning they made an error on a bunt, and in the sixth inning they made an error on a bunt. The Steel Boys made two more errors for the Steel Company.

Bankhead Star When Oakland Natives Win

Toots Cuts Off Maxwell Runs by Great Catch; Scores the Winning Run.

By Eddie Murphy
Much of the credit for the position of the Columbia Steel team at the top of the Class A division percentage column must be given to Elwood "Speed" Martin and the rest of the players who wore the uniforms of the Oakland Parlor of Native Sons yesterday afternoon. While the Pittsburgh team was handling Crockett a beating, Martin and company were doing their best at the Fruitvale ball yard by slipping over a 1 to win on the Maxwell Hardware team which was tied for first place with the Pittsburgh team.

FAST FIELDING STUNTS.
For the Natives, Furrier, first up, was out. Mitchell, second, was a dud. But drive which Mitchell knocked down with one hand. A walk to Paulino proved to be costly, as he stole second, and later scored on a passed ball. Crockett's single just long enough to make the throw at the plate too late for an out.

TOOTS BANKHEAD IN LEFT FOR THE NATIVES.
The greatest catch of the day when he made a long run to pick a foul ball. With the crack of the bat Bankhead was after the ball, and just did get under it. Toots made this catch, for in the same inning the Maxwell filled the bags on two hits and a walk.

THE JOB.
In the sixth inning the Natives put over the winning run and would have had a lead of three runs. But a home run by Crockett's Paulino, which was a walk, and a home run by Crockett's Paulino, which was a walk, and a home run by Crockett's Paulino, which was a walk.

BUZZ ARLETT TAKEN OUT.
Pittsburg's Arlett, who was a walk, and a home run by Crockett's Paulino, which was a walk, and a home run by Crockett's Paulino, which was a walk.

BUZZ ARLETT TAKEN OUT.
Pittsburg's Arlett, who was a walk, and a home run by Crockett's Paulino, which was a walk, and a home run by Crockett's Paulino, which was a walk.

BUZZ ARLETT TAKEN OUT.
Pittsburg's Arlett, who was a walk, and a home run by Crockett's Paulino, which was a walk, and a home run by Crockett's Paulino, which was a walk.

BUZZ ARLETT TAKEN OUT.
Pittsburg's Arlett, who was a walk, and a home run by Crockett's Paulino, which was a walk, and a home run by Crockett's Paulino, which was a walk.

Ninth Inning Rally Winner For Maxwells

Allendale Merchants Make Errors at Just the Wrong Time at Hawthorne.

The Maxwell Hardware Class B celebrated its first game on their home grounds by winning from the Allendale Merchants in a great game in which the winning run was put over in the ninth inning after two were out. The final score was 2 to 1, and the Maxwell team was now up in second place in the Class B race, after getting off to a poor start by losing the first two games of the season. The game was played at Hawthorne grounds before a good crowd and next Sunday the Maxwells will meet the league leading Melrose Merchants on the same field.

DEWEY MCCARTHY FOR ALLENDALE.
Rivers for the hardware boys were in great pitching trim, and there was very little hitting on either side. In the second inning, Allendale put over the first run of the battle. Smith singled, and when Allendale hit the ball, roll through him Smith wound up at third and Ross at second. Warren was out, Rivers for Barry; Christensen singled, scoring Smith.

EVERYTHING WENT ALONG FINE FOR MCCARTHY UNTIL THE EIGHTH INNING WHEN THE MAXWELLS TIED THE SCORE ON A HIT AND A BUNT. DEWEY MCCARTHY WAS ALSO THE HERO OF THE NINTH INNING WINNING RUN. SINGLED TO LEFT AND WENT TO SECOND ON A BUNT. DEWEY MCCARTHY HELPED PUT THE FIRST RUN IN THE BOOK FOR THE MAXWELLS WHEN HE MULED WOOD'S PITCH.

WELL PLAYERS SHOWED THE FIGHTING SPIRIT. KANN WALKED, BARRY WAS SAFE, ON AN ERROR BY LUNN, AND DEWEY HIT ONE TOO HOT FOR WARREN'S CARE OF HIM. KANN WAS SAFELY ACROSS THE PLATE TO END THE GAME.

MELROSE MERCHANTS SURE OF TOP BERTH FOR TWO WEEKS MORE.
The Melrose Merchants can hold the lead in the Class B race of the East Bay Cities Midwinter League for at least two weeks. They trimmed the Crystal Laundry in the eighth inning, 3 to 2, at Bay View grounds, 8 to 0, while the Maxwell Hardware pulled the Allendale Merchants down the line.

CHARLEY JANSEN OF THE MERCHANTS WAS KNOCKED UNCONSCIOUS WHEN A BALL PITCHED BY LAFARGUE HIT HIM IN THE FACE. CHARLEY WAS FORCED TO RETIRE FROM THE GAME, AND YOUNG REPP TOOK HIS PLACE IN RIGHT FIELD.

THE IMPROVERS PILED UP FOUR RUNS, BUT THE MAXWELLS WERE NOT TO BE SHAKEN. THE MAXWELLS WERE NOT TO BE SHAKEN. THE MAXWELLS WERE NOT TO BE SHAKEN.

Bill Prough Leads Coast League For 1917 Shutouts; Speed Martin Is Well Up Official Records Furnish Plenty of Dope For Fans Through Winter

By CARL E. BRAZIER.

Bill Prough of the 1917 Oakland pitching staff pitched more shutouts than any other pitcher in the Coast League last season. Eight shutout games are credited to him in the official records of the league for the 1917 season. Erickson of the Seals hurled seven shutout games; Houck of the Beavers, and Quinn of the Tigers, each won six shutouts.

Erickson was the hardest worked pitcher, with 443 2-3 innings of work; Harry Krause of the Oaks was right on his heels with 422 2-3 innings of work. Jack Quinn of Vernon pitched 409 1-3 innings and was the only other pitcher who passed the 400 inning mark. Chief Johnson of the Seals and Tigers worked 398 2-3 innings for fourth place and then comes Bill Prough with 373 2-3 innings. Penner of Portland is next with 375 1-3 innings.

SPEED MARTIN SECOND. Speed Martin of the Oaks, whose twelve wins and five defeats put him at the top of the list in the percentage of victories among the pitchers, is a good second to Erickson in the rating of pitchers, according to the average number of runs for which each was responsible per nine innings. Erickson was responsible for 1.58 runs per nine innings, while Martin was responsible for 1.64 runs per nine innings. Pitchers are responsible for runs in which no fielding errors figure.

Prough was twenty-third in the rating of pitchers according to the victories and defeats, but in the run responsibility record he ranks ninth, being responsible for 2.38 runs per nine innings. Spider Baum ranked sixteen places ahead of Prough in games won and lost, but is twenty places behind him in run responsibility records.

PROUGH BEATS KRAUSE. Harry Krause won 28 games and lost 28 and was second in the percentage of games won and lost; Prough won 22 and lost 22. But in run responsibility records Prough is far ahead of Krause. Prough ranks ninth and Krause is twenty-second in the run responsibility records, responsible for 2.38 runs per nine innings.

Erickson leads in run responsibility records and was third in percentages of games won and lost. Speed Martin is second in run responsibility and first in percentage of wins. Baum is first of the Angels, whose fifteen-game winning streak at the end of the season gave him second honors in run responsibility, fifth in the run responsibility records.

DOC CRANDALL LUCKY. But the story of the two systems of rating pitchers comes in the case of Doc Crandall, the Angel heaver, who was fourth in wins and lost rating, but who in win percentage was sixteenth, in run responsibility.

Art Promme of Vernon and Rube Evans of the Seals won the pennant, but they won by tighter scores than other clubs won their games. Salt Lake, Portland and Los Angeles in the order named, won the pennant in the regular season. The Oaks had 69 losses for the season than the Seals.

SEALS FAIL TO SACRIFICE. The Seals led in home runs and also in sacrifice hits. The Oaks led in sacrifice hits. The Oakland club played the sacrifice hit game fewer times than any other club. Portland led in sacrifice hits. The Oaks and made two more sacrifice hits. These two clubs are at the bottom of the list in sacrifice hits.

The Oaks made 412 errors—more than any other club. The Vernon Tigers were second in errors. The Seals were third in errors. The Oakland club was second in the assist column in the club fielding records.

HOLLOCHER IS BUSIEST. Hollolcher of the Beavers made more errors than any other player in the league. But he also accepted more fielding chances than any other fielder, with Roy Corhan running him a close second. Hollolcher accepted 1181 chances and made 52 errors. Corhan accepted 1087 chances and made 57 errors.

Individual fielding records show that the following made the best records in the various positions—this is based on fielding alone with no consideration of batting.

NO OAKS NEAR THE TOP. First base, Sheeler, Salt Lake; second base, Rube Evans, Seals; third base, Rube Evans, Seals; shortstop, Hollolcher, Portland; outfielders, Ellis, Los Angeles; pitchers, Standridge, Los Angeles, and Promme, Vernon; catchers, Poles, Los Angeles, and Baker, San Francisco.

The club of the Seals and Williams of the Beavers had the most putouts for the season in the outfield; Irish Meusel of the Angels led the pitchers in assists from the outfield. Quinn of Vernon had the most assists among the pitchers. Hannah of the Beavers had the most assists from behind the plate and his record of working in 155 games for the season is a new record for organized ball. Hannah with 15 assists and Baker with 14 led in passed balls.

UPSET IN BASE-STEALING. The big upset of the unofficial averages is the batting averages published by The TRIBUNE at the close of the season in giving Morris Roth of the Seals batting honors with a .341 average. Tobin of the Bees batted .331 for second honors and Fitzgerald of the Seals batted .324 for third place. Eddy Ryan batted .319 for fourth honors.

Jack Routh left the Oakland club with a .318 batting average. Vernon's pitchers, Poles, Standridge, Los Angeles, and Promme, Vernon; catchers, Poles, Los Angeles, and Baker, San Francisco.

The club of the Seals and Williams of the Beavers had the most putouts for the season in the outfield; Irish Meusel of the Angels led the pitchers in assists from the outfield. Quinn of Vernon had the most assists among the pitchers. Hannah of the Beavers had the most assists from behind the plate and his record of working in 155 games for the season is a new record for organized ball. Hannah with 15 assists and Baker with 14 led in passed balls.

UPSET IN BASE-STEALING. The big upset of the unofficial averages is the batting averages published by The TRIBUNE at the close of the season in giving Morris Roth of the Seals batting honors with a .341 average. Tobin of the Bees batted .331 for second honors and Fitzgerald of the Seals batted .324 for third place. Eddy Ryan batted .319 for fourth honors.

Jack Routh left the Oakland club with a .318 batting average. Vernon's pitchers, Poles, Standridge, Los Angeles, and Promme, Vernon; catchers, Poles, Los Angeles, and Baker, San Francisco.

The club of the Seals and Williams of the Beavers had the most putouts for the season in the outfield; Irish Meusel of the Angels led the pitchers in assists from the outfield. Quinn of Vernon had the most assists among the pitchers. Hannah of the Beavers had the most assists from behind the plate and his record of working in 155 games for the season is a new record for organized ball. Hannah with 15 assists and Baker with 14 led in passed balls.

Oakland Tribune

FOUNDED BY WM. E. DARGIE IN 1875
Member American Newspaper Publishers' Association.
Charter Member, Audit Bureau of Circulation.
Exclusive Complete Associated Press Service for
Greater Oakland.
Full United Press Service.
International News Service.
Pacific News Service.

The Associated Press is exclusively entitled to the use for
publication of all news dispatches credited to it or not
otherwise credited in this paper and also the local news
dispatches herein are also reserved.

TRIBUNE PUBLISHING COMPANY, PUBLISHERS.
JOS. R. KNOWLAND, President and Publisher.
B. A. FORSTER, Secretary and General Manager.
TRIBUNE every evening and Sunday morning. Single
copies: Daily Edition, 5c; Sunday Edition, 5c. Back
numbers, 5c per copy and upward.

Subscription Rates by Carrier.
One month, \$1.50 (in advance); \$2.00 (in advance).
Three months, \$4.50 (in advance); \$6.00 (in advance).
Six months, \$9.00 (in advance); \$12.00 (in advance).
One year, \$18.00 (in advance); \$24.00 (in advance).

Subscription Rates by Mail, Postpaid:
United States, Mexico and Canada.
One month, \$1.50 (in advance); \$2.00 (in advance).
Three months, \$4.50 (in advance); \$6.00 (in advance).
Six months, \$9.00 (in advance); \$12.00 (in advance).
One year, \$18.00 (in advance); \$24.00 (in advance).

NEWSPAPER POSTAGE RATES: 12 to 16 pages, 1c; 18 to 22
pages, 1c; 24 to 48 pages, 3c; 50 to 60 pages, 4c; Foreign
Postage, double rates.

PUBLICATION OFFICE: TRIBUNE building, corner of Eighth
and Franklin streets; phone Lakeside 6000.

Entered as second-class matter February 21, 1895, at the Post-
office of Oakland, Cal., under act of Congress March 3, 1879.
MANAGER FOREIGN ADVERTISING: Williams, Lawrence &
Cresmer Co., New York—Transatlantic Bldg., Fifth ave. and
Twenty-sixth street, Chicago—Harris Trust Bldg., Will
T. Cresmer, representative.

A "PHONE can be secured at the office of
Messrs. E. and J. Hardy & Co., 30-31-32 Fleet street, or
Hawes Steamship Agency, 17 Green street, Charing Cross,
London.

TO SUBSCRIBERS.
Subscribers failing to receive their paper within a reasonable
hour after publication will please report the same to The
TRIBUNE office by telephone, and a special messenger
will be dispatched with a copy of The TRIBUNE at once.

TOMORROW'S ELECTION.

Unlike Mayor John L. Davis, The TRIBUNE has
never advocated the use of the recall. This paper
did not instigate and is in no way responsible for
the recall election tomorrow. Mayor Davis was
one of the first candidates under the recall which
he now condemns, opposing the incumbent, Mayor
Frank K. Mott, when an attempt was made to
recall that official. Regardless of who is responsi-
ble, the election has been ordered under a provision
of the City Charter approved by the people. Cer-
tificates containing 7500 valid signatures of elect-
ors were filed, placing the issue squarely before the
voters of Oakland.

The TRIBUNE, realizing its responsibility as a
disseminator of news, has been liberal in devoting
space to the various candidates and issues. The
statements issued by Mayor Davis and other candi-
dates have been published. Full reports of all
meetings have been carried. The public has been
informed as to the issues.

Many citizens who are opposed generally to the
use of the recall, but who are not Davis support-
ers, realize that in casting a negative vote they
must register what will be included as a com-
mendation of the Davis administration, carry-
ing with it an endorsement of George Kaufman and
likewise placing the stamp of approval upon Mayor
Davis's demagogic attempt to array class against
class and approving his bitter attacks upon many
of Oakland's most prominent citizens, the Chamber
of Commerce—which has taken no part in the
recall election—the Real Estate Board, public chari-
ties and other organizations. Voters inclined to
remain away from the polls are faced with the same
situation.

Summing up, there is really but one issue and
that issue deals with the fitness of Mayor John L.
Davis for the office he holds. Unquestionably the
mayor would have been stronger had he made no
campaign speeches. What opponents have said has
been far less damaging to his cause than what
he himself has uttered. Citizens of Oakland
who are not affiliated with any of the various
political factions, but who have at heart only the
best interests of the community, look with no little
apprehension toward a continuation of the bicker-
ings, the incompetency, the lack of business judg-
ment and the bigotry which has marked the present
city administration.

It is up to the voters of Oakland to decide
whether they will tolerate these conditions for an-
other year and a half.

"HELP FROM SWEDEN."

The services of the government of Sweden in
aiding the pro-German cabal at Petrograd to be-
tray the Russian democrats to the Prussian
butchers is a logical event in the course the Stock-
holm foreign office has followed during the last
three years. Its participation in and effective aid
to German plots were fully exposed by the State
Department at Washington, and the only excuse
the Swedish government has ever offered is that it
did not know what it was doing.

When Count Luxburg, the German minister at
Buenos Aires, wished to inform the German gen-
eral staff that Argentine merchant ships were
approaching Europe and to advise that these im-
mune, unarmed and peacefully inclined craft be
sunk without leaving a trace, it was Sweden who
got the information through to the desired destina-
tion. It was the Swedish charge d'affaires at
Mexico City for whom the German minister at that
capital recommended an imperial German decora-
tion of merit for services in obtaining information
from the United States—"the enemy."

It was at Stockholm that Lenin, Herr Scheide-
mann and other stool pigeons of the Kaiser tried
to arrange for an international conference of
"Socialists" to further promote German intrigue
among the peoples which Germany has attacked.

Now it is the Swedish government that acts as
a go-between for the betrayers of the Russian
democrats and the German agents in Petrograd
and the Kaiser. No one will be surprised to find
Sweden engaged in this work and no one will be
surprised to learn that other neutral diplomats in

Petrograd declined to associate themselves with so
transparent trickery.

It has been publicly stated, and never denied by
Secretary Lansing, that the Swedish legation at
Washington has acted as a medium for trans-
mitting despatches from enemy agents in this
country to Berlin. The exposures of the conduct
of King Gustav's representatives in Buenos Aires,
in Mexico City and in other capitals probably put
a stop to the practice in the United States, but
the Allies had been forewarned and knew what to
expect in connection with the Russian plot.

ITALY THE VICTORIOUS

Count von Hertling, the German chancellor,
declared before the Reichstag Saturday that Italy
should heed the lesson of her defeat. So the Ger-
man mind works. Having become wedded to the
wicked and stupid idea that brute force and savage
atrocities would cause all other people to yield to
the emotions of fear and cowardice, it still imag-
ines that a temporary physical reverse should put
an independent nation into an attitude of trem-
bling supplianee.

The Austro-German thrust into Italian territory
has resulted in the biggest victory Italy has ever
won. It has demonstrated to the Italians that the
Hun may be stopped and beaten back, and how. It
has united the people by arousing them to their
peril, and called for the spirit of heroic sacrifice
on the altar of national defense. This is the essen-
tial first victory of any people in a just war.

Count von Hertling ought to know that the Ital-
ians have just begun to fight. But perhaps the
strategic retreat, von Hindenburg, has been too
busy to report to him the details of the valorous
deeds of the men of Italy.

IDOL SMASHING.

Iconoclasm is the fad of the hour. It affects to
believe that Eve was made of better material than
the rib of a cowardly man who "gave her away." It
claims that Adam really said: "Yes, Lord, I ate
the apple and am ready to take my medicine." It
sneers at the biblical account of the passage of the
Israelites through the Red Sea, and claims that
there was an exceptionally low tide of which Moses
took advantage, and that the waters returned with
a rush that caused Pharaoh's legions to regret the
absence of their India rubber life preservers. It
scouts the narrative of Jonah's three days' occu-
pancy of the bridal chamber in the whale's interior,
without hot and cold water or electric bells, and it
denies that Baalam's burro ever addressed his fel-
low citizens of Judea on the political issues of the
day.

The range of the iconoclast have not been
confined to theology. He has attacked the geogra-
phies that were standard authority seventy years
ago. The Norwegian maelstrom that sucked great
ships into its vortex has been eliminated altogether
from the maps. The great American desert has
been railroaded and irrigated from the Missouri
river to the Rocky mountains, from the Rockies to
the Sierras, and from the Sierras the old liar has
been kicked into the Pacific ocean. The frozen
north is now declared to be rich in agricultural
possibilities, and it is even suggested that an
isothermal banana belt may be discovered by the
signal service bureau somewhere between Seattle
and Sitka.

In history the iconoclast has proved to his own
satisfaction that after George Washington had
tried his little hatchet on the cherry tree, his father
did not say "Come to my arms, my noble son," but
on the contrary he said:

"Come to the woodshed, come with me,
Come and take place across my knee."

and learn—a posteriori—the weight and size of a
shingle.

The iconoclast denies that Cambronne shouted
at Waterloo "The guard dies but never surren-
ders," but avers that the French general used
language much more pungent, and very much less
parliamentary (for particulars read Victor Hugo's
"Les Miserables").

The relentless idol-smasher has recently been
after the scalp of Christopher Columbus. He as-
serts that Christopher's real surname was O'Relley,
that Columbus or Colombo was merely a pet name
for pirate, and that the great Genoese navigator
stole his charts and his ideas of a western con-
tinent from a Greek tourist whom he murdered,
whose trunk he broke open and whose yacht he
scuttled, and that Columbus did not by his logic,
his learning, his brilliancy of speech, woo the jewels
from the neck and ears of Isabella, but obtained
the money for his expedition by conducting a get-
rich-quick game in London.

Next year the idol-smashers will be afforded
active employment. The cry will be Attention,
candidates! The enemy is before you. Gong beat-
ers, sound your hewgags! Throwers of mephititic
bombs, fire! Bookkeepers, charge! Charge can-
didates all the traffic will bear!

Merchant ships now under construction in Japa-
nese shipyards, and which will be completed before
December 31st, have a total tonnage of 332,674
tons. This tonnage has been tentatively disposed
of as follows: Sold to Great Britain, 148,005 tons;
sold to France, 23,229 tons; sold to Italy, 5,600
tons; for service between Japan, American, Russian
and British territories, 51,259 tons; for service be-
tween British territories, 16,700 tons; not fixed,
87,191 tons. Without imposing great hardship upon
her own transportation facilities Japan ought to
look with favor upon a proposal to divert to Amer-
ica use in the Atlantic at least this 87,191 tons of
unengaged new shipping.

NOTES and COMMENT

The Kansas City Star, which has
Colonel Roosevelt on its staff, admits
that it has nothing against the Phila-
delphia Ledger, which has taken on
Mr. William H. Taft; but it hopes
the down East paper will not permit
its ex-President to start anything
with the Western paper's ex-Presi-
dent. From which it is to be in-
ferred that handling ex-Presidents on
newspaper staffs is a ticklish business.

The Maryville Appeal's apprecia-
tion of the mule: "When the Amer-
ican mule makes his appearance on
the western front the enemy will be
brought in contact with a creature
fully as emborn as the government
beyond the Rhine, and many times
more dependable."

At Phoenix they have finished up
a new church edifice but have not
taken down this sign: "First Chris-
tian Church. Danger. Keep Out!"

This is to be blamed on the Santa
Ana blower. "The Denver Post prints
this item: 'Miss Helen Lowe showed
her perfect form in the tennis
doubles yesterday.' Stand back there
men, and don't crowd; stages for the
tennis grounds will leave every three
minutes."

The shameless Riverside Press says
the old-fashioned girl who refused
to get in a swing at the picnic
because she might disclose her ankles
is now riding astride in a costume
she had to get into with the aid of a
shoe-horn."

The Stockton Record calls atten-
tion to the fact that most of our
squirrels are natives, but adds that
they are just as much a pest as
though they had come direct from
Germany.

The Entente plans, according to a
despatch, to "wax the Bolshevik
away from the Berlin yoke." Is
"waxing" to be given status as
another new war method?

According to the Santa Rosa Re-
publican war bread is not new at all:
"War bread is mentioned in the Book
of Ezekiel. It contained barley, beans,
lentils, millet and fitches. The injunc-
tion was, 'Put them into one vessel,
and make these bread thereof.'"

The Colusa Sun elucidates the Rus-
sian situation: "The Russian situa-
tion seems to be today the viewpoint
of the other countries. It appears to
be nearing a new phase that threat-
ens not a few changes. But like
clouds in an uncertain changing
firmament, it may float subject to the
first winds that prevail."

The University of California seems
to be specializing on steers. Several
superior bovines of its breeding have
attracted attention, the latest being
"Marvel," which has been pronounced
by Eastern judges as the best short-
horn ever shown in this country. It
is a notable achievement to produce
a superior steer.

According to the Appeal the Mary-
ville hope has been dashed. "We had
hoped that Jupiter Pluvius was going
to flush our streets for Thanksgiving,
but he did not stay on the job long
enough. Our street sweeper has not
been heard from of late."

SPIRIT OF THE STATE PRESS

There is a well-known man in a
suburban town who is an excellent
after-dinner speaker. He is particu-
larly witty, but he admits he came a
cropper at a recent banquet. He was
scheduled far down the program and
by the time he started some of the
guests were slightly the worse for
wear. He had hardly begun when
one of the guests yelled "Louder!"
The speaker raised his voice. But
after a while he let down a little. The
man again yelled "Louder!" This
awoke a man sleeping peacefully
nearby and he echoed: "Yes, louder,
and funnier!"—San Jose Mercury.

On a drastic bone-dry ordinance, in-
cluding the right of household search
and seizure, with the powerful speak-
ers interests openly against it, Los
Angeles, California, has passed a
yesterday came within 247 votes of
prohibition. "If the ordinance had
been an anti-saloon ordinance at all
resembling that of Los Angeles, there
is no question that it would have
passed by an overwhelming majority."
—Fresno Republican.

Whether the county's new tubercu-
losis hospital at Livermore shall be
run partially as a private sanitarium,
with patients coming in from the out-
side at \$10 a week, is a matter now
being discussed by the Board of
Supervisors, following receipt of a let-
ter from the State Board of Health,
to the effect that the hospital, being
one of the best in California, there is
no reason why the county should not
get all the benefit, provided the county

County Horticultural Commissioner
Christensen has returned from Sacra-
mento, where he attended the
recent convention of California fruit
growers. He says that one of the
principal matters discussed was the
labor situation in California, and it
was claimed that "if men will be
required to handle the next fruit
crop,"—San Luis Obispo Tribune.

PAYING FOR THE BONDS.

Writing testimony to the prop-
erty and wealth of the country is
presented in the fact that although
only 20 per cent has thus far been
come due on the Liberty 4 per cent
bonds, and the final payment of 40
per cent will not be required until
January 15, more than 80 per cent of
the whole \$1,043,000,000 allotted to
the Liberty 4 per cent bonds has already been
paid.

The present backing and filling of
the Liberty bonds of both issues in
the market is incident to placing a
such a large amount of securities,
and will be speedily adjusted as the
bonds find a final resting place in the
hands of permanent holders. Or
every moderate recession they offer
a great opportunity to obtain profit-
able investment in the safest securi-
ties on earth.—New York Herald.

WAVING THE WHITE FLAG

FROM GERMAN NEWSPAPERS

(Translated and issued by the United States Committee on Public Information, Washington)

Difficulty of Dyeing Paper Fabrics.
The increased use of paper fabrics,
says the Wollen-Gewerbe, has caused
special attention to be devoted to the
problem of dyeing them. At the pres-
ent time the dyes used for cotton are
also used for paper fabrics, which are
of the dyer are directed chiefly to
finding dyes which resist water. The
textiles are dyed in the same manner
as cotton goods—in the place. So far
the penetration of the materials by
the dye has not been attempted,
nor is it yet possible in the dyeing
of the yarns. If, however, paper
fabrics are employed to larger extent
for clothing, a complete penetration
of the fabric by the dye will be neces-
sary, as otherwise an undesirable
"shininess" will soon appear on these
parts of the garments, which are ex-
posed to friction. It would, there-
fore, undoubtedly be necessary to dye
the paper in pulp before spinning.
For this purpose it will be necessary
to use water-resistant dyes in order
that there may be no difficulties in
carrying out the process of spinning,
which, as is well known, is a wet
process.

MOTHER LOVE WINS DARING NIGHT RACE

SACRAMENTO, Dec. 3.—Dashing madly across country in her automobile at fifty-five miles an hour to overtake a darkened troop train, on which her boy was speeding east, en route to the French trenches, Mrs. Grace Zane, wife of a wealthy Woodland farmer, made dramatic farewells last night to her son, George Zane, Jr., as the climax of one of the most sensational rides that ever took place in the county.

Mrs. Zane was in Woodland when she received word in a roundabout way that her boy, whom she was to have seen that evening, had been suddenly ordered to train. Over the long distance telephone to this city, she learned that the train was starting even while she was telephoning, and that her dearest mother's privilege of bidding her boy good-bye, perhaps for the last time, was slipping away.

Frantic with grief and disappointment, the plucky woman ran to her garage and cranked up her machine, a powerful roadster. Then with only her lights for a guide and a rough knowledge of the road over which she was to travel, she set out in a desperate attempt to overtake the train. Mile after mile she sped along. The sky was overcast, and now and then drops of rain fell on her windshield, but this did not deter her. She was trying to reach her boy.

Hour after hour she held the breakneck pace, her speedometer in places registering 55 miles an hour. Finally about 2 o'clock in the morning, through the gloom ahead, she saw the dark bulk of a train, east-bound—twenty-five cars—hammering along toward the east. Every light on the train was out, and the coaches rocked and swayed with their precious cargo of boys in khaki. Somewhere in that long swinging string, was George Zane, her son.

For nearly a mile Mrs. Zane held her machine even with the train, trying to figure how to attract her son's attention. Finally she thought of her "spot-light." Switching this around on the nearest coach, she turned it on, and the brilliant beam bored into the gloom of the car. Instantly faces appeared at the windows and heads were thrust out.

"George Zane!" cried Mrs. Zane above the roar of the car wheels. Again and again she called out, until finally the beam landed on a man in charge of one of the squads. Instantly a search of the cars began. Men ran through coach after coach, until they found him, George Zane of Woodland. He came to a window and thrust out his head and a hand.

"Hello, mother!" he called. "I knew you would come."

"Good-bye, son," came back the plucky woman's voice, through the knew you would come.

There came the honk honk of an auto horn and the auto lights dropped back into the dark, while the train sped on, the boys giving cheer after cheer for the woman who had made the record run for a last good-bye.

PLAN NEW PRICE

Four 16-Year-Old Girls Are Reported Here as Missing

Four 16-year-old girls were reported to the police today as missing from their homes, two from College City, Colusa Co., and two from Oakland.

Lucinda Sanford and Mabel Fitch failed to return to the home of Mrs. O. E. McKenzie at 600 Thirty-eighth street last night, and the police have been asked to search for them.

Martha Irene Cummins and Charlotte Smith left their home in Colusa County Saturday, and are believed to be in Oakland. Miss Cummins is a daughter of Larue Cummins and has a cousin, Mrs. Earl Kellogg, living at 2130 Shattuck avenue, Berkeley, and an aunt, Mrs. William White, of 2910 Fulton street, San Francisco. Miss Smith has an aunt, Mrs. J. H. Jones, of 1126 Fifty-third street. None of the relatives had heard from the two girls today, and trace is being sought of them through railroad employees. The Smith girl is blonde, and her companion is brunette.

SCIONS OF EARLY PIONEERS AT BIER

In the presence of scores of representatives of old Spanish families, many of whom had not met for half a century, the final rites which marked the passing of Ludovino Peralta de Ivey, daughter of the earliest of the California land barons, were solemnized at St. Leander's Catholic Church today. Rev. Father Francis Garvey officiating.

Behind the hier walked men and women who have seen the State in its infancy—Moragas, Estudillo, Peralta—paying tribute to a woman they had all respected and who was one of the last of her line. As the funeral cortege passed the little church of St. Louis in Elmhurst, a church bell in the tower, a gift of the dead woman's sister, Maria Toler, tolled a final requiem.

The funeral was one of the largest ever seen in the county. Not only was it attended by most of the old residents who had known Ludovino Peralta de Ivey in her younger days, but two generations of younger members were present to show their respect to a pioneer's passing. From all parts of Alameda county came floral pieces, wreaths, banks of blooms, without number, until the casket was buried beneath them all.

Services were held at the dead woman's home at 9:30 this morning. This was followed by a regular high mass at St. Leander's Church. Special music was furnished by the choir from St. Mary's cathedral in San Francisco. The interment was in St. Mary's cemetery.

Government's plan to virtually fix silver prices, were told that the price would be made to provide for recent wage increases and to insure against loss.

HUNTER HAS NEW PLANS FOR TRAINING

The greatest questions confronting our American cities are the problems of Americanization of our foreign elements and the training of all our youth for efficient productive citizenship.

This is the summary of a report made by Superintendent of Schools Fred M. Hunter to the city board of education today following his return from a five-day inspection of the Los Angeles school department in company with Assistant Superintendents Louis B. Avery and E. Morris Cox.

Supplemental reports were also filed by the assistant superintendents covering the junior and senior high schools and the general school activities respectively.

FOR "AMERICANIZATION."

Superintendent Hunter says four objects must be attained, namely:

A system of vocational education and vocational guidance.

A system of junior high schools.

A plan for handling special classes of children, such as that provided by parental schools.

Policy of developing Americanism through community centers and neighborhood schools.

Regarding co-operative courses in parental schools Superintendent Hunter says:

"Los Angeles thus finds it more profitable to spend money in preventing the development of criminals and social and industrial outcasts than in combating and remedying the evils arising from prevalence of such classes after the harm has been done. The system of co-operative classes in this system of parental schools is, in my opinion, unique. It is the best application of industrial training to this class of children which I have yet seen."

PROMOTIONAL SYSTEM.

Assistant Superintendent Cox particularly investigated the promotional system which he concludes "is a problem not only of a well organized plan for the whole school system for normal pupils, but that it also must include proper provision for disciplinary cases, for those who are capable of going more rapidly than normal cases as well as those who are misfits in their grades or incapable of doing the regular school work."

Teaching of useful trades and crafts will go a long way in bringing about Americanization of children of foreign parents or birth, reports assistant Superintendent Avery on his findings regarding provision for disciplinary cases, for those who are capable of going more rapidly than normal cases as well as those who are misfits in their grades or incapable of doing the regular school work."

"This should have a great influence in changing foreigners into Americans and especially in doing away with all distrust of the intentions of America toward them."

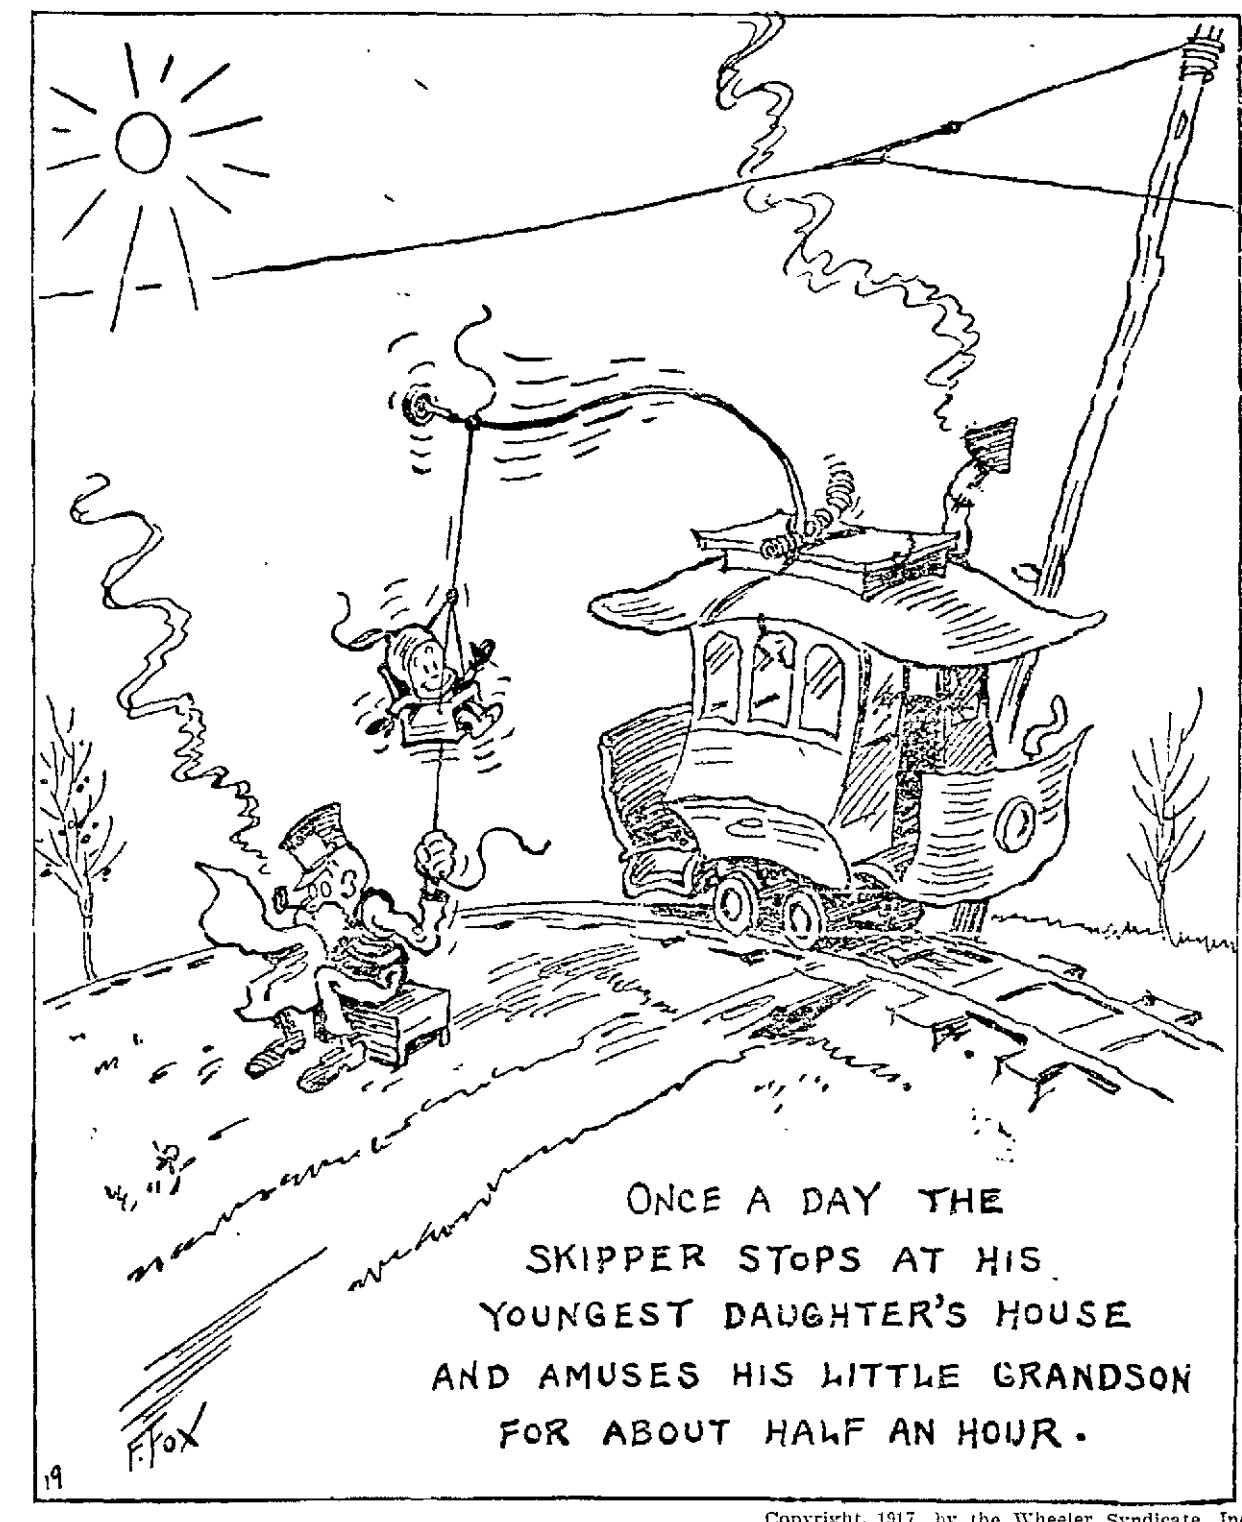

BALLOON DRIFTS

KANSAS CITY, Dec. 3.—Drawing with its trailing steel cable a line due south-east, over three states, from Fort Omaha in Nebraska through Kansas and into Oklahoma, a big observation balloon from the army air post is drifting over Oklahoma today. The bag, while awaiting its passengers, ran to the end of its cable during a high wind yesterday and became a derelict.

BROWN TO TALK

Professor Warren Brown of the extension division of the University of California will address the members of the advertising bureau of the Chamber of Commerce tomorrow at the Hotel Oakland on "Direct Advertising." The talk will be given at the regular weekly luncheon of the organization.

THE TOONERVILLE TROLLEY THAT MEETS ALL TRAINS

Copyright, 1917, by the Wheeler Syndicate, Inc.

FUTILE SEARCH

JOLIET, Ill., Dec. 3.—Posses of the local Board of Trade and the region surrounding the state prison here today for thirteen convicts who sawed through the bars of their cells early today and escaped. Two guards, who were beaten by the prisoners, are suffering with serious injuries.

Under the direction of Warden Murphy, a cordon of heavily armed guards has been thrown around the neighborhood, but at an early hour this morning all of the convicts were still at liberty.

The men who escaped were leaders in the outbreak six months ago, when one guard was killed and nine men wounded. They had been placed in solitary confinement.

C. SHARP PASSES

Craigie Sharp, for many years a member of the local Board of Trade and a prominent member of the State Board of Trade died at his home, 744 Sycamore street, today, aged 75 years. The dead man was a native of Morristown, N. J., and came to California in 1876. He has been a resident of Oakland for the past twenty-five years.

Sharp was survived by a widow and four children, Craigie P. Sharp Jr., Edwardsville, Ill.; Henry W. Sharp, Portland, Me.; E. L. Howard, 107 Kempton avenue, this city; and Mrs. Henry S. Howard, San Francisco.

Funeral services will be held from his late home next Wednesday.

MILITANTS TO SUE

WASHINGTON, Dec. 3.—Alleging assault with false imprisonment, strike pickets recently released by court orders from Occoquan workhouse and the district jail, will file suits tomorrow asking an aggregate of \$400,000 damages from the District of Columbia commissioners. Superintendent Whitaker of Occoquan and Warden Zinkham of the district jail.

CASE BEFORE JURY

A jury in Police Judge Mortimer Smith's court is today deliberating over the guilt or innocence of Pong Wong, a Chinese woman, who is accused of illicit traffic in narcotic drugs. She was arrested under the direction of the state pharmacy board a second time soon after being acquitted on a similar charge.

For Eye Comfort Wear

"Caltex" Invisible Bifocals

For years the making of glasses for far and near seeing has been going through a system of evolution and not until "Caltex" Invisible Bifocals were perfected has a lens been made that was entirely satisfactory. It is the unqualified opinion of the most expert lens makers that "Caltex" Invisible Bifocals are the best that have ever been produced or likely to be produced in years to come—if ever. For guarding the eyes against strain and increasing their efficiency "Caltex" are unequalled.

SENDS WARNING

TO REGISTRANTS

Official warning to persons who have changed their addresses since they registered for the last draft has been sent out from the office of Adjutant General J. J. Borro in the form of a communication from Provost Marshal General Crowder at Washington, calling attention of the governor to peremptory action which the United States will take in the case of failure to attend to this detail.

REGAINS CHILD

ROSLYN, L. I., Dec. 3.—In her beautiful home at "The Crossways," Mrs. Bianca de Saulles, freed of the charge of the murder of her former husband, Jack de Saulles, Broadway favorite and Yale athlete, played and romped today to her heart's content with her son, Jack de Saulles Jr.

NEW GUN PLANT

GENEVA, Dec. 3.—Germany's great gun makers, the Krupp, have opened a branch factory at Lucerne.

OPPOSE REQUEST

Opposition to the extension of the hours in which liquor may be sold on New Year's eve from 1 o'clock New Year's morning to 2 o'clock, was voiced in the City Council today by Mrs. Helen Sweet Artieda, speaking for the Public Welfare League. Mrs. Artieda presented a communication in which the league advised against permitting the sale of liquor after 1 o'clock.

The city ordinance provides for 1 o'clock closing, but permits an extra hour at the discretion of the chief of police and City Council on New Year's. The state law closing hour is 2.

WARNING IS ISSUED

SAN FRANCISCO, Dec. 3.—Every saloon and restaurant in San Francisco today was notified by the police to observe meatless Tuesday and wheatless Wednesday under penalty of revocation of liquor licenses. It is declared that many of the German-owned saloons have failed in strict observance of the food regulations, although a majority of them have complied.

MONEY FOR GIRL

James P. Gray, who recently located his daughter Mildred here after reading the local papers received by soldiers in Camp Lewis where he was engaged in construction work, was today ordered by Police Judge Samuels to contribute \$50 which he had up as bail money to the support of the girl pending the outcome of a guardianship case before the Superior Court.

WHIST CLUB LAW IS UP TOMORROW

The ordinance to regulate the whist clubs and all other places where cards are played in clubs and halls, aimed to prohibit women spending hours over the gaming tables, taking their children to the halls and to stop men and women playing night after night games of draw poker and plute for money after the whist games are over, will be presented for passage to print before the city council tomorrow morning, it was announced today.

New exposures of conditions at these card clubs, brought about by a father asking the aid of the police to get his wife, the mother of a 12-year-old girl, to return home to care for the child, brought action today. The ordinance was framed at the request of Chief of Police Nedderman some time ago after the exposure of conditions at the card clubs. At that time women were taking tiny children to the halls and keeping them for hours with the packed cards.

The ordinance was referred to the city attorney, and, at a conference between Chief of Police Nedderman, Commissioner of Public Health and Safety F. E. Jackson, Judges Smith and Samuels of the Police Court, and members of the Public Welfare League, was slightly modified. Mrs. Helen Sweet Artieda, secretary of the league, today announced that the ordinance has the approval of the organization. It will give the chief of police extensive powers of regulation.

TEARS PITIFUL STORY

Gilard T. Havens of 510 Jackson street told a pitiful story of his efforts to induce his wife to stay at home and give up her visits to the whist clubs, that she might make a home for their 12-year-old girl. Havens sought the assistance of the police yesterday to help him in getting his wife to leave a whist club game in progress at Loring Hall, Eleventh and Clay streets.

Corporal E. W. Brock was detailed to visit the hall with Havens. They found half a hundred women, young and old, feverishly playing at some thirteen whist tables. No children have been allowed in these places since the exposure of conditions was made in the columns of the TRIBUNE some weeks ago. Prior to the time the women were taking tiny children and letting them sleep and play on the floor while they spent hour after hour at the gaming tables.

Chief of Police Nedderman had been investigating the clubs at the time of the exposure and issued an order against children being taken to the halls.

WIFE IS FOUND

Mrs. Havens was found at one of the whist clubs, where she had been playing with her husband and Corporal Brock. She indignantly refused to leave the place and told her husband that if he thought their daughter needed care he could go home himself and give it.

Mrs. Eva Kirch, proprietor of the establishment, declared that she had not noticed Mrs. Havens to the place, saying that she came of her own free will and could leave whenever she wanted to. She admitted that the women played cards for prizes and that after the whist games they rented tables and cards to play draw poker and plute for money. She said this was within the law and that so long as she conducted the place in an orderly manner she should not be interfered with.

EARNINGS LOST

Havens told the police that his wife had been a frequent visitor at the place and that his earnings had frequently been gambled away at cards. He said that other families whose wives had become devotees of the whist clubs were in a similar plight and asked if no remedy could be found by the police, no means to stop the gaming for money.

S TO CHRISTIAN SCIENTISTS

department store, bent on obtaining that which is manifestly good for you, and with no time to waste in puzzling over things whose value does not at once appear, I am sure you will be surprised to find how much of Christian Science is immediately available.

VICTORY OVER DRINK. "There are certain signs of the presence of the true God, a presence necessarily active and good. Christian Science has taught him that a right result never is due to chance, that it always is the outcome of the operation of divine law. He knows that this law is everywhere present and is self-operative. Therefore

has not been tempted to lower his concept of deity by assuming to the wicked theory that a righteous God uses evil to promote good, nor to stupefy his spiritual sense with that discreditable substitute for straightforward thinking, the familiar theological narcotic, that the ways of providence are inscrutable. The

Lecturer From Mother Church Heard Here

MENTAL NATURE OF DISEASE.
 "That the evil called disease is the external expression of the inner mental condition of the individual and more generally of the community and more generally of the race, is a fact which is now being demonstrated by the Christian Science, in which all manner of disease is healed by treatment applied to the mind. I have been long desirous to see that disease in all its aspects is the working out of wrong thinking. This does not mean that it is caused by the mind, but that it is caused by the mind. I have been thinking persistently that disease, it has been said truly that no man liveth unto himself. Since living is thinking, then no man liveth unto himself. The effects of mental environment are matters of common observation. For instance, it is considered natural for persons to manifest more or less of the characteristics of the community of their families, communities or nationalities. Does the Chinaman in America, shall I stop to consider all these things and try to figure out why there are there and what they could mean? I do not. I do not know. I do not report in anger or discouragement, understanding I will have nothing more to do with an establishment that does in this way. I do not know what to do. Of course, I will do nothing of the sort. I consider at all the things that mean nothing to me. It may be more to recognize that the entire community and that everything offered was of some use to someone. It may come to me also that my own needs may change, and that I may be able to do something to help to appreciate some of these very articles. For the present, however, I shall take the things I know I need and put them to the use of my mind. I am not being needed. If you will go to the Christian Science textbook as you would go to the

being a guide to Christian Science for the solving of their business problems. The author, a woman, writes that the word of God has risen to be made the words of a man of world-wide reputation for his character and his devotion to the subject of salesmanship recently, he said:

"We are beginning to see that the success of any business does not consist of the mere selling of goods. The true salesman is a man true to the interests of his customer. The highest aim of salesmanship is to help the customer understanding the true merits of the article on which he is asked to sell. My experience has taught me that the effort to make a sale by any other means is not only unchristian but also against the own purposes. No business can develop except as it is based on the highest character and on the goods or its services. In salesmanship the greatest possible selfishness is the most enlightened selfishness. The salesman must be a man whose life is perfect in full confidence that profits will come according to the ideals involved."

"*Sure, Declaration from a modern captain of industry means that the business is to be run by divine law and not by man's law. He is beginning to realize that the success of such qualities as faith, truth and love in business organization have a definite relation to commercial success. The absence of such qualities will result in eventual failure. The Christian Science movement has shown that the same results occur, but he has the advantage of knowing why they occur and how to avoid them. He is beginning to divine how in business in constantly increasing degree. He is a trained observer of mental conditions. He knows that*

the hearing of the sick by prayer as practiced by Christian Science.

THE CHRISTIAN SCIENTIST AND WAR.

"Good citizenship is the only real product of true thinking. One would search the annals of Christian Science in vain for justification for the slightest delay in the Christian Scientist's duty to defend and assist his native land." But the Christian Scientist who has borne patriotically his portion of the material burdens of the world has not been spared the spiritual burden that too sorely overtaxes humanity. The Christian Scientist was first caught in the wave of speculation that swept over the country in the religious fervor when "the full utterance of the errors of war brought men face to face with the question of the relation of the Christian Scientist to the things of this world."

The Christian Scientist has had occasion to induce a moment of uncertainty as to the infinite wisdom, power,

HAYWARD DRIVE
HAYWARD, Dec. 3.—Detailed plans for Hayward's part in the big Knights of Columbus drive are under way today. Committees are preparing the big campaign that will be launched Tuesday evening, at a meeting in Mission Hall. The executive committee was appointed at a meeting last night in the hall, where John E. Geary was named chairman.

The committee will include S. Pereira, A. A. De Mello, Frank Mitt Jr., A. J. Martin, Miss Mary McKee, Mrs. E. A. Massa, Mrs. J. E. Geary, J. H. Woods, Mrs. A. Flores, D. T. L. and W. T. Knightley.

STOCKS and BONDS BY WIRE FROM BOARD QUOTATIONS NEW YORK CHICAGO SAN FRANCISCO LOCAL EASTERN & FOREIGN PRODUCE and GRAIN AUCTION SALES J. A. MUNRO & CO. AUCTIONEERS

PRICES REGULAR ON WALL STREET

NEW YORK, Dec. 3.—War shares improved a heavy tone in the general list today's market, falling from substantial fractions to two points with Marine preferred, coppers, Studebaker, Texas Consolidated Petroleum and Industrial Alcohol. United States Steel yielded slightly, but immediately hardened. Tails were irregular in the afternoon, and advanced. Former tendencies ruled before the end of the first hour, equipments and other stocks in the movement. Thirty buyers held steady.

OPENING—At the opening the market was dull and confined only to standard issues. Prices changed very little and to lower levels. United States Steel common sold at 44 to 45.5 and Bethlehem Steel at 44 to 45.5. Standard Oil of Indiana at 44 to 45.5. Studebaker was active and after declining 1-3 to 44.75, rose to 45.75.

FOREIGN—The display of strength which followed the opening declines was of a short duration and before the end of the first hour a heavy tone again developed. Pullman dropped four points to 115. Bethlehem Steel "B" ranged early from 15.5 to 16 and then dropped to 15.25. Steel at 15.25. Copper stocks were active and weak.

FOREIGN—Copper and a few utilities, notably American Telephone and T. U., sought lower levels during the stagnant mid-session, but steel and other industrial stocks slightly with important rails.

CLOSING—The market closed irregular; government bonds unchanged, railway and other bonds steady.

Final—Final dealings were quiet. United States Steel common dropped from 44.75 to 44.5. Bethlehem Steel "B" declined to 15.25. Marine preferred declined to 15.75. Utah moved up to 45.75. Sales, 267,200 shares; bonds, 3,044,000.

UNION LABOR PARTY PLANS ARE ADOPTED

Executive and organization committees are today hard at work on the final details of the organization of the new Union Labor Party, which, last evening, at its first preliminary meeting, outlined its skeleton organization, electing W. Lore as chairman and W. A. Spooner, secretary. The meeting, held in Gompers Hall, Eleventh and Washington streets, was attended by nearly 300 delegates, representing practically every union in Oakland and the east bay region. The scope of the new party, which will, under the present plans, be semi-political, will be county wide.

Matters of legislative importance were discussed during the details of choosing the executive committee and the first officers, and intermingled with these were various ideas as to the scope and purposes of the party. The adoption of the constitution will make many of these points plain, as the committee will inspect the various ideas advanced in drawing up this document. "Lions will be represented at the future meetings of the party according to their numerical strength."

"For Freedom of World" Shows Up Slacker Fatty Also at Kinema Today in "Coney Island"

"FOR THE FREEDOM OF THE WORLD"

This is the kind of War Drama that Mothers, Sisters and Sweethearts Will Get the Most Out of, at the Kinema Today and Until Saturday.

"For the Freedom of the World" which is showing at the Kinema today and until Saturday, besides being a powerful war drama, and a gripping romance, has a smashing lesson of patriotism that will appeal to every American and make those whose boys are at the front proud that they are Americans and that they have American boys fighting the fight of democracy.

Here is a war drama, in which the fighting is the least part, but in which the human interest, that part which ap-

Three-Cent Stamp Rate Makes Jump in Postal Receipts

Just what the new three-cent tax for letters, imposed by the government as a war measure, has meant in the revenues of the Oakland postoffice for one month, is shown in a report issued today by Postmaster Jas. J. Rosborough, which shows an increase of \$16,366 for the month of November of this year over the figures for a corresponding period last year.

The records show that the revenues of the postoffice for November, 1916, were \$48,816. For November, 1917, there has been taken in the sum of \$65,382. This represents an increase of approximately 33 1-3 per cent directly due, it is believed, to the three-cent stamp rate.

The executive committee consists of E. H. Hurley, W. E. Castro, B. F. Pen, F. Bart, D. P. Sullivan, B. E. Dewey, W. T. Drake and Eugene Moore.

WILL LAUNCH SALE OF RED CROSS SEALS

The Alameda County Society for the Study and Prevention of Tuberculosis will launch a campaign to sell Red Cross Christmas seals throughout Alameda county. The sale will for the most part be of a whirlwind nature and will last for three days—Tuesday, Wednesday and Thursday. Seals will, however, be left on sale until Christmas day, with an army of volunteer workers who have been recruited from the membership of the society and from the church organizations and women's clubs. Seals will be sold from tables in the banks of Oakland by committees headed by Mrs. Edson F. Adams, Mrs. Frank Hunt, Proctor, Mrs. Wickham Hayes, Mrs. H. C. Capwell, Mrs. Arthur Tashera, Miss Margaret Black, Mrs. Charles E. Snook and Miss Annie Florence Brown.

The department stores will be in charge of committees headed by Mrs. J. W. Sanderson and ladies of the First Congregational church, Mrs. L. R. Webster and students of Miss Merriam's school, Mrs. W. T. Drake and Mrs. L. D. Moore.

WOMEN IN CHARGE. The Oakland postoffice ladies' aid society No. 1 Mrs. James McAllister, president, ladies of the American Red Cross Society and the Oakland Club, Mrs. E. L. Ormab, chairman. Hazel Oakland is in charge of Mrs. Elizabeth Tucker. Seals will also be sold by the pupils of the Oakland public and private schools.

In Piedmont the school children will sell the seals under the leadership of Miss Clara Crumpton, supervising principal in Alameda. The sale is being conducted by Mrs. John Parker (Ruth Tisdale), who is being assisted by a host of friends. In Berkeley 200 Camp Five Girls, under the leadership of Mrs. Gustavus Schneider, will make a canvass of the entire city, affording an opportunity for every resident to purchase seals. In Hayward the Hill and Valley Club will conduct the sale, and in San Leandro the Alta Mira Club will take charge.

In Richmond the pupils of the public schools under the supervision of W. T. Helms, superintendent, will enter into a competitive sale for prizes which have been offered by members of the Alameda County Anti-Tuberculosis Society.

ASSISTANCE NEEDED. The Alameda County Society for the Study and Prevention of Tuberculosis is striving to make this year's sale greater than ever. In view of the expected increase in the number of cases which they will be called upon to assist as the war progresses.

The officers and executive committee of the Alameda County Anti-Tuberculosis Society are: President, Harrison S. Robinson, first vice-president, Charles E. Snook; second vice-president, Mrs. Allen G. Freeman, treasurer, Fred E. Taylor, secretary, Miss Annie Florence Brown; executive committee, Fred Kahn, Dr. A. S. Kelly, Rev. Clifford Macdon, Mrs. F. C. Turner, Dr. Edward von Adelung; executive secretary, T. C. Cuvellier.

INSPECTOR CHOSEN

SACRAMENTO, Dec. 3.—John M. Griffin, of Madera, Cal., has been appointed state inspector of explosives by President Wilson.

UNIQUE TAG DAY FOR BOYS IN BIG CAMPS

Will you string tags? Will you help sell them? Then you're WANTED.

The general committee of the lodges and organizations planning the Liberty Boys' Tag Day next Saturday have sent out the call for volunteers.

One thousand girls are needed to sell tags. One hundred workers are needed Thursday to string the tags. Volunteers should report to headquarters the tenth floor of the Syndicate Building Thursday morning, and every volunteer should bring her own scissors.

In the meantime the campaign committee and the executive committee, under the leadership of Chairman A. Vander Naillen Jr., are completing the last details for Saturday's big drive for funds to remember Oakland's soldiers on Christmas.

SPECIAL STUNTS.

Special "stunts" are planned for the day to wake the public up to the importance of the cause. There will be the theatrical brigade, commanded by Miss Sophie Tucker and Miss Nan Halperin, who will sell tags during the noon hour. Harry Cornell, manager of the Orpheum, and Max Ilorowski are in charge of the committee handling this "stunt." Chairman Vander Naillen has been asked to perform some of his famous sleight of hand tricks from a street platform to advertise the "tags." Other details are under way. James Post, the comedian, with a bevy of pretty girls will range the streets during the afternoon to sell tags. Eight hundred Boy Scouts and hundreds of school children will be in the selling forces.

"This thing just has to go over," declared Chairman Vander Naillen. "It means Oakland's reputation with the men fighting Oakland's fight. When our boys went down to Los Angeles they found the soldiers from the south being taken care of lavishly by their city, mess funds and everything. Our boys wondered where Oakland's spirit is."

BUY A TAG. "To buy a tag means little to us up here, but it means everything to the boys who have volunteered to fight for us that we may stay here. That's why we want Oakland to make good."

The plan, started by the Oakland Moose, is endorsed and backed by every fraternal, civic and commercial organization in Oakland, as well as by the school authorities. Boy Scouts' tag day will be the biggest ever held in the city.

What is doing TO-NIGHT.

Fitchburg Social and Improvement Club, 1227 East Fourteenth street. N. S. G. W. and N. D. G. W. give benefit theater party, Orpheum. "In Adland" presented, Auditorium. Catholic War Fund campaign. Regular monthly meeting of Durant School Mothers' Club.

HEN SHOULD LAY RAINBOW EGGS FOR EASTER

James A. Morrison, Placerville, chicken expert and egg fancier, says the Hotel St. Mark's watchman watching his coatroom while he sleeps. For in that pocket is the most valuable egg in the world—according to Morrison.

Morrison says the egg cost him \$3.48 at the poultry show, which closed at the Oakland Auditorium last night. He says the hen died immediately after he bought the egg—probably overcame at the price of her product. The reason he paid that price for the egg, according to Morrison is that when hatched out, it will produce a chicken that will lay Easter eggs.

Morrison knows, because he believes in pre-natal influence, and just before the hen laid the egg, he showed her a picture of a rainbow and the hen seemed interested. Now, if the theory is right, the hen that hatches from that egg will have a spectrum chest and lay rainbow eggs that will make the aurora borealis look like a piece of crepe.

This may be all wrong. But the watchman is duty and the egg is there, and what more does anybody want—except proof?

FIRE IN COLLEGE.

NEW YORK, Dec. 3.—Damage of about \$25,000 was done to the building of the New York University by fire.

"In Adland" Will Be Shown At Auditorium Tonight

HAPPY OLD SAN FRANCISCO

AUGUST ACUIRRE, who will sing "Happy Old San Francisco" at "In Adland" tonight.

Musical Comedy Written by G. A. Cummings for San Francisco Ad Club Is Here

The much-heralded musical comedy, "In Adland," which George A. Cummings of this city wrote for the San Francisco Ad Club, will be presented at the Auditorium Opera House this evening.

This offering of the ad men comes to Oakland after a highly successful three nights' run at the Savoy theater in San Francisco, where its tuneful melodies, keen and witty dialogue and delightfully amusing situations won the approval of the critics.

One of the big song hits of the production is "Sammy," in which Fred McNulty and chorus score heavily. "Happy Old San Francisco," another song success, is rendered by August Acuirre and the Auditorium theater box office.

ensemble. Both these songs are assured of long and widespread popularity.

Other clever and entertaining song numbers and specialties are "The Answer Is Yes," "Beautiful Queen of the Nile," "Little Girl, I Love You," "Dance of the Cigarettes," "Guns and Indians," "Boys," "Little Fairy," "The Eyes of Oakland Town," etc.

Unique stage settings and original and striking costumes feature the production of "In Adland," which has been adjudged the best and cleverest theatrical offering yet made to the public by the San Francisco Ad Club.

Reserved seat tickets will be on sale at 1221 Broadway today until 5 p. m., after which the unreserved seats will be transferred to the Auditorium theater box office.

BIG SALMON FLEET MAY RETURN HERE

With the sale of the extensive cannery interests and the fishing fleet of the Northwestern Fisheries Company of Puget Sound to the Booth Fisheries Company of California, formal notice of which was placed on file at the Customs House yesterday, indications that the salmon fleet, which is one of the big commercial factors on the coast, may come back to Oakland harbor, became a possibility.

The transfer of interest, as covered by the Customs House records, is one of the important happenings of the year in marine circles. The business of the Alaska fishing fleet runs into millions of dollars. The outfitting of the boats, the equipping of the crews and the repair work on the vessels themselves at the conclusion of the long Arctic cruise represents an item of business that left a considerable hole in bay affairs when it went north several years ago.

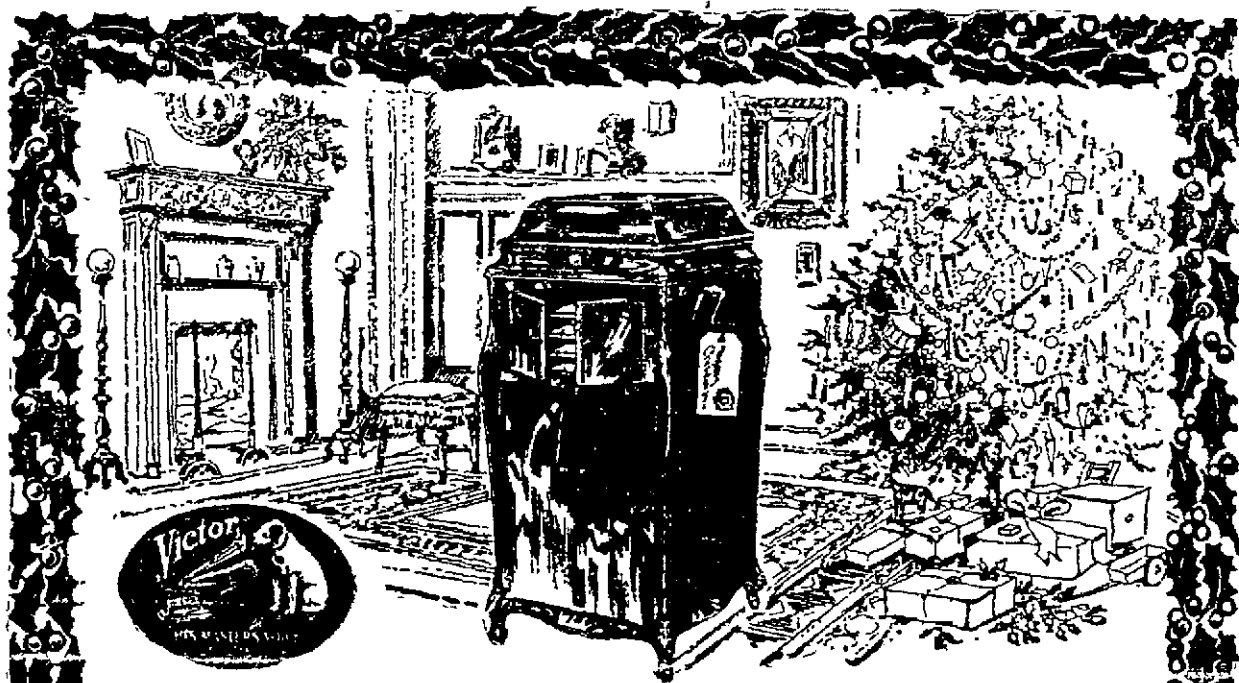

The transfer price has not been made public, but it is understood to run into substantial figures. The selling interests became associated thirteen years ago, when the Pacific Steam Whaling Company and the Hume Canneries, consolidated, incorporated under the name of the Pacific Packing and Navigation Company. The controlling interest was held by Harry J. Knowles of Alameda. Oakland was made the headquarters port.

Later the company was sold to the Rosene company and reorganized under the name of the Northwestern Fisheries Company, later to be taken over by the Guggenheim interests. The purchase by Booth was made from the Guggenheim interests. The fleet of fishing vessels, which went as a part of the sale, number 125 crafts of various kinds, among which are the following: A. J. Fuller, Benjamin F. Packard, Charles E. Moody, Guy C. Goss, J. D. Peters, A. B. Carpenter, all well known in this port.

ARE ARRAIGNED

SAN FRANCISCO, Dec. 3.—The defendants in the Preparedness Day bomb cases, Edward J. Nolan, Israel Weinberg, Thomas and Rena Mooney, appeared in Superior Judge George C. Haines' court this morning for arraignment under indictments growing out of the conspiracy charges brought against them by the grand jury, and their cases were continued on motion of Assistant District Attorney Louis Ferrari until December 22 to be set.

They are also on the calendar in Superior Judge Frank Dunn's court for the same case. Central bank unit involving that the case of Edward Nolan would probably be selected by the state for trial first. The application of Israel Weinberg to be released on bonds will be decided by Judge Dunn on Wednesday.

Give that VICTROLA to the Family This Christmas!

You have been planning every Christmas to surprise the folks with a VICTROLA—then why not make this one that long-promised Victrola Christmas? Study this picture so you will know how genuine Pepto-Mangan looks.

Friendly Warning!

Be certain that you get genuine Pepto-Mangan—Gude's. All others are substitutes, trading on true Pepto-Mangan's reputation. Carefully read the circular around the bottle. For sale at all drug stores.

The Ideal Tonic for the Whole Family

For more than a quarter-century Pepto-Mangan has been the Standard Family Tonic in thousands of homes in America and Europe.

If your vitality is below par, if you or your wife has weakened under the strain of household or business cares, if one of your children is inclined to be anemic or does not seem real well, a course of Pepto-Mangan should be taken.

Its beneficial results will soon be apparent. For Pepto-Mangan strengthens the very source of health and vigor—the blood—by charging it with iron and with thousands of new vigorous, health-making, red blood cells.

Gude's Pepto-Mangan "The Red Blood Builder"

Its enduring and ever-increasing success is due to the fact that Pepto-Mangan is a True Tonic, which rebuilds health and vitality on a sure foundation—it rebuilds the body by rebuilding the blood.

That is why it has for so many years proved itself invaluable to the medical profession and to the public, as a general tonic for pale, unthriving children, over-tired men and women, weak old people, and for those who are seeking strength after illness.

Made only by M. J. BREITENBACH CO., Manufacturing Chemists, New York
